## MAN WHO SHOT HORSE THAT DREW NEW YORK BOMB WAGON IS FOUND

Police Also Claim to Have  
Information Regarding Per-  
son Who Took Animal to  
Blacksmith Shop and Have  
Instituted a Search for Him.

## ANNOUNCEMENT AFTER EVENING WORLD STORY

Paper's Theory That Ex-  
plosion Was Result of a Feud  
Between Labor Groups  
Denied by Leaders Men-  
tioned.

By Leased Wire From the New York  
Bureau of the Post-Dispatch.

NEW YORK, Nov. 12.—With the  
publication yesterday in the  
Evening World of a fabric of evidence  
indicating that the Wall Street ex-  
plosion of Sept. 16 might have been an  
outgrowth of the bitter conflict be-  
tween the William Zanzano and the  
Robert P. Brindell unions of house-  
wreckers, the police made known  
their discovery of the blacksmith  
who shod the horse that drew the  
bomb wagon and of the identity of  
the man who took the horse to be  
shod.

Who this blacksmith is the author-  
ities would not say. Information re-  
garding his customer was even more  
carefully guarded for the search  
after him is still under way. The de-  
velopment, however, is looked upon  
as most important that has come in  
the eight weeks exactly that have  
elapsed since the disaster brought  
death to 37 persons and injury to  
nearly 200 others, besides its prop-  
erty damage of \$2,500,000. Capture  
of the man who shod the bomb-wag-  
on horse to be shod means, the police  
believe, the capture as well of  
those directly responsible for the ex-  
plosion, or at least their identifica-  
tion and the establishment of their  
purpose. How and when this first  
definite step toward this end was  
taken by the police they would not  
say. Acting Inspector John J.  
Coughlin, in command of the detec-  
tive division, merely made the an-  
nouncement and declined to add to it  
or to comment on it. It is under-  
stood, however, that it came within  
the last three weeks.

**Announcement Follows Publication.**  
The announcement of the police  
was purely a coincidence of the pub-  
lication by the Evening World of the  
evidence it has assembled regarding  
the explosion. Presumably, though,  
it was made because of the Evening  
World's implication that the police  
had come to a dead center in their  
work.

The police had nothing to say  
about this, but they affected to con-  
sider the Evening World's recon-  
struction of the crime as theory  
only. In this attitude the bureau of  
investigation of the Department of  
Justice agreed, as well as the pri-  
vate detective agencies at work on  
the case. Spokesmen for the labor  
organizations involved in the story  
protested that it was without basis  
of fact.

Immediately upon the appearance  
of the Evening World with its dra-  
matic story, the authorities began a  
check-up of its declarations. Zan-  
zanos was summoned from the city  
hall, where he was attending the  
hearing of the Lockwood Commit-  
tee, to the offices of the Bureau of  
Investigation of the Department of  
Justice. There he was interrogated  
with his attorney, Daniel Dowling,  
more than an hour by Agent Charles  
F. Scully.

"I know absolutely nothing of  
this charge that members or friends  
of my union were responsible for the  
Wall Street explosion," Zanzano said  
when he came out. "I positively do  
not believe that any of my men had  
anything to do with it or knew any-  
thing about it. I know them all.  
They tell me everything, and if any  
of them knew anything about this he  
would have told me."

"If there are to be explosions they  
must be Brindell explosions. Our  
men fight clean. And, too, there had  
been no men of my union at work on  
this Volk job. I do not know, but  
maybe some of them were at work  
that day. Should they be put in  
danger? It is an old story, the trou-  
ble with Volk. He put out my men,  
away back in May; he was the sec-  
ond or third that went over to Brin-  
dell. There was only one of my  
men hurt on the Volk job, and that  
was early in August. It was the  
middle of September when the ex-  
plosion came."

Zanzano convinced the Bureau of  
Investigation agents that he did not  
have knowledge of any plot for the  
explosion. He satisfied them, too,  
that there were no radicals in his  
union.

## STAYED IN JAIL TO CURE SELVES OF DRUG HABIT

Two Men Released When They  
Make That Plea—Other Cases  
Before Judge Faris.

Henry C. Clifford, 40 years old,  
and Henry Biedeman, 30, told Judge  
Faris in the Federal Court today, in  
pleading guilty of purchasing nar-  
cotics, that they had deliberately re-  
mained in jail since July 20, al-  
though able to furnish bond, for the  
purpose of curing themselves of the  
drug habit. Both men were well  
dressed.

"Do you think you are cured?"  
asked the Court, and both said they  
did.

"I'll give you the benefit of the  
doubt," the Judge declared. "If you  
come back, however, I'll give you  
substantial assistance in the form of  
a prison sentence," and discharged them.

**Negro Also Discharged.**  
The next defendant under the  
same charge was Arthur Mason, a  
negro, who had been in jail 140 days.  
He said he was once kicked by a  
mule, and had been subjected to vic-  
tious headbeats, which caused him  
to resort to drugs for relief.

"The Court is afraid you will have  
some more of those headaches," said  
Judge Faris.

"No sir, I don't believe I ever will  
have another one, Judge," Mason re-  
plied, and was permitted to go, with  
the warning that another offense  
would bring severe punishment.

The fourth drug case was that of  
John Quinn of 1219 S. Third  
street, charged with selling cocaine.  
He pleaded guilty.

"Your case is different from those  
I have just heard," Judge Faris said.  
"These men are victims of the stuff.  
While they were trying to cure them-  
selves of the habit, you were engaged  
in making more like them. You  
merit punishment, and I sentence  
you to two years in prison."

"Wait a minute, your honor," in-  
terposed Quinn. "If you feel that  
way about it I want to withdraw my plea."

**Withdraws His Plea.**  
"Very well," Judge Faris replied.  
"You may do that, but I warn you  
now that a jury finds you guilty  
this court will have something more  
to say to you on that occasion," and  
he set the case for trial Dec. 2.

Quinn thought it over a while and  
then reappeared. "I've changed my  
mind again," he said. "I want to  
plead guilty." But there were exten-  
uating circumstances about that. I  
didn't sell drugs; I simply felt sorry  
for two fellows and gave it to them,"  
Judge Faris said that in view of this  
he would reduce the first sentence  
to 18 months.

The next case differed from all  
the others. It was that of Charles  
Williams, charged with having pos-  
session of drugs. He had been in  
jail since Oct. 26.

"You may be cured, but you  
haven't been away from the stuff  
long enough yet," said the Court.  
"I'll send you back for four months  
more."

A large number of indictments in  
drug cases were returned by the  
Grand Jury that reported a few  
days ago. Five other persons, in-  
cluding Dr. Julius Domino of 4206A  
Castlemans avenue, charged with  
selling narcotics, were arraigned and  
pleaded not guilty. Their cases were  
set for trial.

## MOTORMAN AND CHAUFFEUR HELD IN WOMAN'S DEATH

Criminal Carelessness Re-  
sponsible for Killing of  
Miss Hazel Miller, Cor-  
oner's Verdict.

## STREET CAR HURLED AUTO AGAINST HER

Victim Standing on Sidewalk  
Was Pinioned Beneath  
Heavy Automobile; Suf-  
fered Fractured Skull.

A Coroner's verdict of criminal  
carelessness was returned today in  
the death last night at 5:25 o'clock  
of Miss Hazel Miller, 25 years old,  
of 4036A McRee avenue, who was  
standing on a sidewalk and was pin-  
ioned beneath an automobile of  
heavy model which was hurled onto  
the sidewalk at Twenty-ninth street  
and McRee avenue by a Park avenue  
street car.

The jury held Jeremiah Shook, 40,  
of 3904 Polson avenue, motorman of  
the street car, and John Ross, 24, of  
1009 Pine street, chauffeur for Dr.  
V. D. Blair, 45, of 4854 Pershing ave-  
nue, owner of the automobile.

Miss Miller had paused on the  
sidewalk at the northwest corner to  
permit another automobile to pass  
the crossing. Dr. Blair's automobile  
was thrown upon her. The wreck-  
age was lifted and she was placed  
in the automobile of another phys-  
ician, but she died of a  
fractured skull before reaching home.

Dr. Blair, who was an occupant of  
his car, suffered a fracture of his  
right arm, concussion of the brain  
and scalp wounds. He was taken to  
Barnes Hospital and has been unable  
to give a version of the accident.  
Ross suffered internal injuries and  
was taken to the city hospital. He  
has been unable, also, to make a  
statement.

Henry P. Monahan, 47, of 2848  
Shaw avenue, who was near Miss  
Miller on the sidewalk, was knocked  
down and cut by glass.

Miss Miller's death was the ninety-  
sixth motor vehicle fatality in the  
city since last Jan. 1.

## TESTIFIES HE GOT \$1,992,000 MOVIE STOCK FOR NOTHING

A. H. Wagner of Famous  
Players Missouri Corpora-  
tion Gives Deposition in  
Suit Against Koplar.

## \$2,000,000 "IN CASH AND PROPERTY" PAID

Attorney Retorts "Property"  
Was Theaters Controlled  
by Him for Which He Has  
Not Been Paid.

Albert H. Wagner of the Sterling  
Apartments, assistant manager and  
director of the Famous Players Mis-  
souri Corporations, yesterday testi-  
fied in a deposition that at the or-  
ganization of the corporation, he  
received \$1,992,000 of its stock for  
which he paid nothing.

The Famous Players Missouri  
Corporation was organized early this  
year with a capitalization of \$2,-  
000,000 to take over 17 theaters con-  
trolled by Harry Koplar of 6511  
Pershing avenue. It since also has  
completed the Delmonte and Mis-  
souri theaters.

Koplar delivered possession of his  
suit of the Famous Players to com-  
pleting a part of the deal involving  
only the smaller neighborhood the-  
aters which he describes as his  
"meal ticket" and leaving the deal  
for the others, including the Kings  
and Pershing, whose business inter-  
ests he had declined, still unsettled.

He also objects to the proposal  
that he is to accept in part payment  
for certain of the theaters a block  
of stock in the Famous Players' Mis-  
souri Corporation.

The questioning by his attorneys,  
A. M. Frumberg and Edward For-  
estel, yesterday, was, they stated,  
an endeavor to establish that the stock  
of the company did not have a value  
as represented.

Frumberg read from a certificate  
of incorporation filed with the Sec-  
retary of State in which it was de-  
clared that \$2,000,000 for the stock  
of the company had been paid over  
to the control of the directors in  
legal money of the United States.

"In hope of stock of the company,"  
he declared, in answering an objection  
of Famous Players counsel, former  
Judges Rhodes E. Cave and Henry  
Cauffman Jr., "that this is not a bona  
fide corporation, and that \$2,000,000  
of subscription to its stock has not  
been paid up as sworn in legal money  
of the United States."

**Kreisman's Stock Paid For.**  
Former Mayor Fred H. Kreis-  
mann, a director, stated that he had  
given him \$1000 for 10  
shares of stock of the company.

Cave interrupted questioning of  
other directors, saying: "We admit  
that \$2,000,000 in cash was not paid  
in. It was property and cash."

"Yes," retorted Frumberg, "the  
property was the 17 theaters con-  
trolled by Koplar, for which the Fa-  
mous Players have not paid him."

Cave added that between \$800,000  
and \$900,000 in cash since has been  
paid into the corporation's treasury.  
This has gone into the cost of con-  
structing the Missouri Theater, and  
has been applied on the purchase  
price of Wagner's stock.

Wagner, in admitting that he paid  
nothing for 19,920 shares of a par  
value of \$100 each, declared that he  
had not received the stock certifi-  
cates, and that he did not know the  
identity of the person or persons  
who have paid about \$900,000 on his  
stock. The Missouri corporation is  
a subsidiary of the Famous Players-  
Lasky Corporation of New York, of  
which Alphonse Zukor is president.

The depositions were taken in  
Frumberg's office before Richard A.  
Jones, recently an unsuccessful can-  
didate for Circuit Judge in the fight  
against the "K's" as commissioner.

## WOMAN HEARS NOISE ON PORCH, SHOOTING AND FIRE IS RETURNED

When Mrs. Mary Penkert, 1818A  
Chouteau avenue, heard a noise on  
her back porch at 2 a. m. today, she  
decided that she would investigate  
alone, and say nothing to Henry, her  
husband. So she took his revolver  
and went into the kitchen. After  
looking over the situation, she fired  
two shots through the closed win-  
dow.

Instantly a shot was fired through  
the window in return. At this point  
Mrs. Penkert called her husband,  
and turned the revolver over to him.  
He went out and looked around, but  
could find nothing.

## CLIMBS ON WIRE TO MAKE SPEECH AND IS HURT IN FALL

Wellston Merchant's Arm Broken  
When He Attempts to Ad-  
dress Armistice Celebrators.

What happened to Harry Meyer  
last night goes to prove that the  
average citizen never should at-  
tempt to make a patriotic speech  
while balancing on a tight wire.

At Wellston, where the armistice  
spirit runs high, the armistice was  
being celebrated. A neighborhood  
brass band marched through the  
streets, and "the boys from around  
the corner" fell in behind it and  
formed a parade. As the band came  
opposite Meyer's music store, at 5384  
Easton avenue, it stopped for a mo-  
ment.

Meyer came out to see what it was  
all about, and the crowd saw him.  
"Speech from Meyer?" someone  
shouted, and the others took it up.  
"Speech, speech!" they shouted, and  
some of the women neighbors who  
had come on to their porches,  
clapped their hands approvingly.

Meyer flushed with becoming  
modesty, and looked around for a  
place to stand. A guy wire was  
stretched horizontally between two  
poles, about eight feet from the  
ground, and Meyer climbed up to it.

"Ladies and gentlemen, and fellow  
citizens," he began. The crowd  
cheered. "I am not a public speak-  
er. Just then he lost his balance  
on the wire, and tumbled forward.  
An examination showed that his left  
arm was fractured, a deep cut had  
been inflicted in his chin, and he  
was severely bruised. He was taken  
to his home, 5347 Ridge avenue, in  
an ambulance. The band continued  
on its way.

## CORK HUNGER STRIKE CALLED OFF WHEN IN 94TH DAY

Bishop Had Urged Nine Irish Pris-  
oners to Take Food, Saying  
Fasting Was Wasted Effort.

CORK, Nov. 12.—The hunger  
strike of the nine Irish prisoners in  
the Cork Jail was called off today,  
the ninety-fourth day of the fast.

This was revealed when a message  
received by Lord Mayor O'Callaghan  
from Arthur Griffiths, founder of  
the Sinn Fein organization, was given  
out:

"I am of the opinion," read the  
message, "that the countrymen in  
the Cork prison have sufficiently  
proved their devotion and fidelity  
and that they should now, as they  
were prepared to die for Ireland,  
prepare again to live for her."

This message has been transmitted  
to the nine surviving hunger strikers  
in the jail.

The condition of the nine hunger  
strikers was described as "shockingly  
poor."

Bishop Cahan of Cork, in a let-  
ter made public today, in which he  
voiced a strong appeal that the  
strike be called off immediately, ex-  
presses belief that it is still pos-  
sible to nurse the men back to  
health. "Lord Mayor MacSwiney's  
strike accomplished the purpose of  
attracting world attention," he adds.  
"The nation got value for his life  
but the continuance of the present  
strike is only a waste."

## Mrs. MacSwiney to Come to U. S. to Testify in Irish Inquiry

WASHINGTON, Nov. 12.—The  
Committee of the House of Represen-  
tatives investigating the Irish ques-  
tion today had accepted the offer of  
Mrs. Muriel MacSwiney, widow of  
the late Lord Mayor of Cork, to  
come to the United States to testify  
in the hearings which the commit-  
tee plans to begin Nov. 17. Mrs.  
MacSwiney, the committee said,  
had been asked to reach the United  
States, if possible, not later than  
Dec. 6.

## "AMERICA WILL NOT FORGET," SAYS WREATH ON ABBEY GRAVE

Ambassador Davis Deposits Tribute  
to British Soldiers—Thousands  
Put Flowers on Cenotaph.

LONDON, Nov. 12.—Never before  
has London witnessed such vast and  
patient crowds as those which paid  
tribute yesterday to the soldier dead.  
Late last night they still were filing  
past the permanent cenotaph in  
White Hall, many depositing  
wreaths, and through Westminster  
Abbey, where yesterday the body of  
an unidentified soldier was re-  
buried.

All during the afternoon tens of  
thousands of persons awaited their  
turn at the barricades to pass along  
White Hall and past the cenotaph.  
John W. Davis, the American Am-  
bassador, after the ceremonies in  
Westminster Abbey were completed,  
placed a wreath on the grave of the  
unknown soldier. It bore the words:  
"America will not forget."

Davis was accompanied by Canon  
Cargill of Westminster.

Many workers on their way to  
their tasks filed past the cenotaph  
today. By 8 o'clock many men and  
women, both young and old, prin-  
cipally of the poorer working popu-  
lation, were placing small bunches  
of flowers and wreaths at the monu-  
ment. The crowd increased as the  
day progressed, necessitating the  
continuance of the closing of White  
Hall to vehicular traffic.

## ELECTRICIANS RESUME WORK

BERLIN, Nov. 12.—The electrical  
workers have begun on strike  
resumed work yesterday. The Bur-  
gmaster had previously issued an ul-  
timate to the strikers threatening  
dismissal unless they returned. A  
ballot thereupon was taken and a  
majority voted for resumption.

## W. M. BATES WILL DEFEND ELLIS; PLEA TO BE NOT GUILTY

Attorney Says He Will Oppose Admission of Confession as Evidence — Retained by Ellis' Friends.

## POLICEMEN WAIVE CLAIMS TO REWARD

Men Who Worked on Case Say Mother of Girl, Who Gave Prisoner's Name, Earned \$2000.

William Maffitt Bates, a lawyer with an office in the Security building, announced today that he had been retained as counsel for Albert Ellis, now a prisoner in the city jail, who Sunday signed a confession stating that he killed Edna Ellis, his former fiancée, with a razor, Thursday night, Nov. 4, in a vacant lot near her home at 1833 North Garrison avenue.

Bates said he would enter a plea of not guilty for Ellis, when his case is called in court, and would attempt to have the confession read out. If it is offered as evidence, he has instructed Ellis to say no more to anyone about the case. Ellis, this morning, said he intended to obey his lawyer's order of silence.

Friends of Ellis' stepfather and mother, Mr. and Mrs. Ernest Kallhauser, of 4605 Sacramento avenue, engaged Bates, the lawyer said. Bates was a candidate for the Republican nomination for Judge of the Court of Criminal Correction, in the primary last August, but was defeated by Judge Krueger. Bates was indicted in the primary campaign, by a majority of the Republican lawyers voting in the Bar Association poll.

Mother Visits Ellis in Jail. Ellis has been moved from the third floor of the jail to a second-floor cell, where he will have the freedom of the corridor. Bates said he is not a danger to him. Strong feeling against him was manifested by other prisoners when he was first placed in the jail.

Ellis' mother, Mrs. Katharine, visited him yesterday afternoon, accompanied by a woman who had brought her to the jail in a limousine. The limousine was given to the jail that Mrs. Katharine's companion was a woman of means, but her name was not learned.

Policemen who worked on the murder case, up to the time of Ellis' confession, have united in declaring that they do not intend to claim any part of the reward of \$2000 offered by the Bell Telephone Company which the girl was employed for information leading to the arrest and conviction of the murderer. They all waive their claims in behalf of the girl's mother, Mrs. Marie Ellis. Officials of the Bell company have been in favor of making Mrs. Ellis the beneficiary of the reward, but have announced that the disposition of the reward will be determined by the court which tries the case, following a verdict of conviction, or other determining action in the case.

Reports by Policemen on Case. Chief of Police O'Brien yesterday requested all members of the force who had been connected with the Ellis case to make reports to him, setting forth their knowledge of the case, and stating whether they consider themselves entitled to any reward. The Chief today gave out the reports made by Joseph Gerk, assistant night chief, who observed the confession, and said this report was typical of the others. Gerk said in his report:

"I am entitled to any reward, if it is simply the reward for merely properly performed. If there is any monetary consideration, I wish with all my heart that it might go to the poor mother, who needs it most."

Chief O'Brien said Mrs. Ellis' claim to the reward rested on something more than sentiment, and that she furnished the first information which gave the police officials reason to believe that Albert Ellis had guilty knowledge of the murder. She insisted, when the police were inclined to think otherwise, that Ellis was the person most likely to have killed her daughter.

Police Rule as to Rewards. Under the police regulations, policemen obtain 25 per cent of any sum of money paid to them as reward, the approval of the Police Board being required before any reward can be accepted. The other 75 per cent goes into the treasury of the Police Relief Association.

Both Chief O'Brien and his officials were not altered by developments of yesterday, regarding the razor with which, according to Albert Ellis' confession, the murder was committed by him Thursday night, Nov. 4, on a North Market street lot near the girl's home. Bates said they considered the case closed so far as police investigation is concerned, and that Ellis' repudiations, alternated with reaffirmations, of his confession made no impression on them.

Have Tested for Blood Spots. By Charles W. Schery, City Bacteriologist, reported that his preliminary chemical tests failed to show that there was blood on the blade of the razor with which Ellis said he killed his girl. This razor was found by the police at Glasgow avenue and Madison street, near the

## FRANCE FIRMLY OPPOSED TO GERMANY'S ENTRANCE INTO LEAGUE AT THIS TIME

Foreign Office Intimates "Drastic Action" Would be Consequence if League Voted to Admit Republic Now.

By the Associated Press.

PARIS, Nov. 12.—The French Government is unalterably opposed to the admission of Germany to the League of Nations at this time, it was stated at the foreign office today. Some "drastic action" would be a consequence if the League voted to admit Germany, it was intimated.

The Foreign Office said there had been conversations with Great Britain on the subject and that the British, who had been inclined to favor German membership in the league, now had accepted the French viewpoint, allowing the matter to rest for the present as Germany has not applied for league membership. It is considered unlikely there will be any effort in promise of success to get the assembly at Geneva to act favorably on the question of Germany's admission at this time.

The French hold that Germany must prove her intention to fulfill the terms of the peace treaty and live peacefully with her neighbors before seeking membership, and they contend there has not yet been time for them to become convinced regarding Germany's attitude along these lines. Georges Leygues, the French Premier, is declared by the Echo de Paris to have recommended that French delegates at the meeting of the assembly of the league at Geneva withdraw if Germany is admitted under the protest of France.

## New States in Europe Also Oppose Germany's Entrance.

By the Associated Press.

GENEVA, Nov. 12.—France, Belgium, Rumania, Yugoslavia and Czechoslovakia will resist the admission of Germany and Hungary to the League of Nations although they are not unfavorable to Austria and Bulgaria. There are indications in League circles that the drift toward admission of former enemy countries is strong and likely to reach the necessary two-thirds of the members unless a compromise is effected.

The statement is growing that whatever may be the merits of the case, the discussion in the assembly is likely to develop a sharp controversy which the leading members of the League desire to avoid. At the first session it is probable the immediate admission of Austria and Bulgaria will be proposed and effort made to have action in the case of Germany postponed to another meeting of the assembly. Attention is being directed to the admission of Germany, while the still is technically at war with the United States. Czechoslovakia is stoutly opposed to the admission of Hungary and is unable to support the entry of Germany, but it is understood she will not con-

billboard where Ellis says he washed his hands after the murder. There was no "blood reward," he said, though spots on the blade have the physical appearance of blood. Dr. Schery said that the presence of blood stains on the blade was not proof of the absence of blood, as steel instruments sometimes fail to show the reaction even when blood is on them. He said he would make further and more extended tests. His observation, he said, showed that the razor had been used and stopped frequently.

Commenting on this, Chief O'Brien said, "The razor lay on the ground from Thursday night to Sunday evening, accumulating rust. Also, it is not likely that Ellis neglected to wipe or rinse it in some manner, when he was so careful to get the blood off his hands. I am satisfied that, as stated in the confession, it was the razor with which Ellis did the killing."

Ellis Took Police Over Ground. Chief Hannegan said Ellis, in going over the ground with police officials, supplied all details of occurrence of Thursday night, in a way which, he believes, he would have been incapable of doing if he had had to depend on his imagination.

Police Capt. Johnson, after a search of Ellis' effects at his home, reported yesterday that he found a razor in a tool box, which was like the razor which Ellis has described as being his property, except that the words "hollow ground" were not found on it. It has a black handle and a nick, as mentioned in Ellis' description. No marks of blood appeared on it.

Ellis, in his story to the police, had said that the razor used in the killing was one which he had ceased to use for shaving. It is supposed that the razor found by Johnson was the one with which he shaved. The absence of bloodstains on Ellis' clothing has been a puzzling circumstance, and has caused some persons to question the accuracy of the young man's confession.

## JUDGE GRIMM REQUESTS INQUIRY INTO "CUTTING DOWN" OF HIS VOTE

Continued From Page One.

Eighteenth and Nineteenth Wards returns are of a character which would at once arrest one's attention. The following are selected as being most glaringly suspicious:

The returns from the Eighteenth Precinct, Seventeenth Ward, seem to be manifestly false. The Sixth Precinct, Twenty-first Ward, is so entirely out of harmony with the vote of every other precinct in that ward that it looks suspicious, and this is also true in the Sixteenth Precinct, Twenty-fifth Ward, and the

test the admission of Austria and Bulgaria, which now appear nearly sure of election.

Partisans of a spring meeting of the assembly point out that the forthcoming session will be unable to elect judges of the new international court and that their election ought not to be postponed another year, thereby putting off for that time completion of the mission. The meeting of the assembly will be held in the Hall of the Reformation Auditorium, seating 3000. It was erected in honor of John Calvin. The proceedings will be conducted in French and English, but interpreters will be provided for the German, Arabic, Scandinavian, Dutch, Italian, Portuguese, Russian, Spanish, Croatian and Czech languages.

The secretariat of the League of Nations today received Austria's formal application for admission to the league.

Argentinian Says Way Must Be Found to Get U. S. in League. By the Associated Press. — PARIS, Nov. 12.—One of the most important problems to come before the Assembly of the League of Nations at its coming meeting in Geneva will be that of finding some way of bringing the United States into the league. In the opinion of Hon. Dr. Puyredon, Argentine Minister of Foreign Affairs, as expressed here yesterday:

M. Puyredon, who is a delegate to the assembly, will appear before the assembled delegates as soon as he can find an opportunity, he said, to point out to them that the participation of America in the league is fundamental to the very existence of that organization.

"I think it a great pity that the United States is not already an active participant in the league," he said. "While I do not say that the league should be abandoned because the United States has not joined it, I believe that her entrance is vital if the league is to be a viable, functioning body for the prevention of wars."

"The country which has always stood for and fought for justice and which gave birth to the wonderful league idea must become a party to the almost divine mission which a real world league has before it. My trip to France and to the battlefields has simply made me feel firmer that there must be a League of Nations. I am afraid that war has not been ended, but, on the contrary, has just begun; and unless a strong league is brought into existence the world will again see a struggle, more frightful than the one just finished."

"I am a firm believer in the league, if it is to be one of action, not of words, and in this I express the views of my countrymen."

Wants Returns Investigated. In the Twenty-fifth and Twenty-seventh Wards I recall I got the highest vote on the judicial ticket in every precinct except the two mentioned, in which the strange reversal I seem to have got nowhere.

"Now that you are making an investigation I hope you will make it a point to investigate all the precincts indicated."

The tabulated figures submitted by Judge Grimm contain the returns on about 30 precincts as to the reported vote on Republican candidates for nomination for Circuit Judges. In each case the returns show a very small vote for the "housecleaning" candidates, but large votes for the candidates favored by the "Court House Ring" of Republican politicians.

Among the figures submitted are those from the Eighteenth Precinct of the Seventeenth Ward, which show the vote to have been: Allen, 4; Grimm, 5; Kimmel, 94; Killoren, 94; Landauer, 2; Mix, 3; Mogan, 1; Owing, 94; Peary, 4; Shields, 2; Zachritz, 3.

Believes Miscount Was Made. Commenting on this return today, Judge Grimm said this precinct was the one in which the University Club is located and that there was reason to believe a vote of considerable volume was cast there for the "housecleaning" candidates, but apparently it had been counted for the Republican candidates.

In the Eighth precinct of the Fifteenth Ward, according to the figures submitted by Judge Grimm, he got only eight votes, while Killoren received 137, Kimmel 129 and Owing 132, no other candidate receiving more than 18.

In the Seventh precinct of the Fourth Ward the ring candidates received the following vote: Allen, 2; Owing, 3; Killoren and Owing were credited with 99 each and Kimmel with 92. Similar discrepancies were shown in all the other tabulations submitted to the Circuit Attorney by Judge Grimm.

Negatives to Present Evidence. The Citizens' Liberty League, an organization of negroes, at a meeting last night at 3137 First street in St. Louis, elected George L. W. Vaughn, 121, secretary. Dr. W. Vaughn, to appear before the grand jury and present evidence of fraud in the Seventeenth Ward. Vaughn was a candidate for the Republican nomination for Congressman from the Twelfth District in the primaries.

## MAN KILLS WIFE, THEN SHOOTS SELF, DIES AT HOSPITAL

Tragedy in the Kitchen of  
Walter M. Kessler's Home  
Last Night Followed a  
Quarrel.

### COUPLE SEPARATED ABOUT TWO WEEKS AGO

Sister of Woman Says Hus-  
band Was Jealous and Ac-  
cused Wife of Being  
Friendly With Other Men.

Walter M. Kessler, 27 years old, of 2513 North Ninth street, died at the city hospital at 2:15 a. m. today of wounds which he inflicted upon himself after he had shot and killed his wife, Katherine, 25 years old, in the kitchen of their home at 7:30 p. m. last night.

The Kesslers were married last April and separated about two weeks ago. A quarrel started when Kessler went to the house last night to get his clothes. Mrs. Kessler was shot in the right side, the bullet passing through her body. Kessler shot himself in the right temple and the chest.

Miss Yerna Bloom, 18 years old, sister of Miss Kessler, told police men she was asleep in the middle room when she heard Kessler and her sister quarreling in the kitchen. She said Kessler turned on her with a revolver and ordered her to leave the room. She returned to the bedroom and heard two shots. She ran from the house to call neighbors and heard two more shots. Returning with neighbors she found Kessler wounded and unconscious in the kitchen. Mrs. Kessler was found dead in the yard near the kitchen door.

Miss Bloom said Kessler was unreasonably jealous of his wife and had accused her of being friendly with other men. She said he left home two weeks ago.

In a notebook in Kessler's pocket were found three notes. In one of these he professed love for his wife and asked that they be buried together. He accused her of neglecting her home and going out with other men.

## MRS. HERBERT CRANE'S SUIT AGAINST HUSBAND ON TRIAL

Young Wife Testifies 65-Year-Old  
Millionaire Was Insanely  
Jealous.

By the Associated Press.  
CHICAGO, Nov. 12.—The separate maintenance suit of Miss Elinor Crane, the young wife of Herbert P. Crane, 65 years old and a millionaire, is on trial at Geneva, Ill. Cruelty and insane jealousy, which brought a romance in Costa Rica, Miss Crane testified yesterday. Crane charged that she liked to dance with other men, but that she was "always too fatigued to dance with me."

The Cranes were married in April, 1914, after a three months' courtship. Mrs. Crane is the sister of Samuel P. Crane, a Washington, and the daughter of B. E. Piza, Costa Rican coffee planter.

Charges that Crane was interested in other women were met with denial.

"She married me for my money; she wanted to finance the whole family," he declared.

"He has never seen our baby, now 2 years old," Mrs. Crane retorted. "He came to the hospital, but wouldn't look at it."

Mrs. Crane is now receiving \$800 a month alimony.

## MAN SOUGHT SINCE 1911 TO BE EXTRADITED FROM PENNSYLVANIA

Austrian, Identified by Picture,  
Wanted on Charge of Killing  
Marion Miller Here.

A St. Louis policeman left Jefferson City yesterday with extradition papers and expense money, both provided by Governor Gardner, to try to get back to St. Louis Joseph Mirmich, an Austrian, who has been sought since April, 1911, on a charge of fatally stabbing Wesley Koons, a sub-foreman in the Helmshaber Rolling Mills, DeKalb and Barton streets.

Governor Gardner furnished the expense money because the Circuit Attorney's contingent fund is empty and because the St. Louis police have shown the picture of the man held in Pennsylvania to 13 men who witnessed the fight in the rolling mill. All said that the picture was that of Koon's assailant.

The police have been informed that effort is being made to obtain Mirmich's release on habeas corpus proceedings and have telephoned the Farrell police to hold him at all costs.

## FOUND IN ALLEY, SKULL CRUSHED

Ernest Moline, 36 years old, a houseman at the Washington Hotel, King's highway and Washington boulevard, was found unconscious from a fractured skull at 1 o'clock this morning in an alley in the rear of 11 South Seventh street.

At the city hospital he was revived for a few minutes and said he had left his place of employment at 6:30 o'clock last evening and went downtown for a stroll. He said he had \$90 in his pockets at the time and could not recall what befell him. Only 30 cents was in his pockets when he was found.

## Woman, 77, Teacher for 48 Years, Is Killed by Truck

Mrs. Halcyon Childs Struck  
by Vehicle Driven by Jo-  
seph R. Rebstock of Candy  
Company.

Mrs. Halcyon Childs, 77 years old, of 5803 A Page boulevard, who for 48 years was a teacher in St. Louis public schools, 28 years of which she served as a principal, was killed at 5:30 p. m. yesterday at King's highway and Minerva avenue by a motor truck driven by Joseph R. Rebstock of Overland Park, St. Louis County, head of the Rebstock Candy Co., 213 Chestnut street.

Mrs. Childs was crossing from the north to the south side of Minerva avenue, at the west crossing, as Rebstock, who had been driving north on King's highway, turned west into Minerva avenue. He told the police that he was driving slowly and that Mrs. Childs, who had almost cleared the path of the truck, evidently became confused, as she turned suddenly and started back to the north side of the street, stepping directly in front of the truck.

She was picked up unconscious and was taken to the City Hospital, where surgeons said that she probably had been killed instantly. Her skull was fractured. In a purse which she carried the police found \$3.89 and a slip of paper on which was written her name and address. Her body later was identified at the morgue by her son, Benjamin Childs, whose address was not obtained.

A coroner's verdict of accident was returned today, and Rebstock, who had been arrested and released on bond, was not held responsible. Coroner Vitt, after hearing the evidence, reiterated a warning given him several weeks ago that elderly persons and children should not cross streets after dark unattended. The death of Mrs. Childs was the ninety-seventh automobile fatality here since June 1, 1919.

Mrs. Childs resigned as principal of the New Ashland School in June, 1912. Her retirement followed a victory over 90 men in the New Ashland School district, who had tried for several years to force a patrons' association, and whose plans she frustrated. She opposed patrons' associations on the ground that such organizations usurped the powers which she believed should be vested solely in principal. She was sustained by the Board of Education, which ruled that without her sanction the proposed organization could not function. Following her retirement an association was formed.

Mrs. Childs taught at Jefferson, Franklin, Stoddard, Lincoln and Chouteau schools and, in addition to the new Ashland School, served as principal at the Bryan Hill School. She regarded the changes in teaching methods, which were numerous in her time, as changes for the better, but she did not consider the introduction of free school books as a wise move. She contended that people would not be as careful in the handling of free books as they had when the books were personal possessions.

Mrs. Childs was educated in St. Louis, where she was born in Ohio of English parentage and was brought to this city when a child. She was a pupil at the old Elliott School, which stood at Sixth and Locust streets, and she was a member of the first class graduated from the old St. Louis High School, Fifteenth and Olive streets, which later became Central High School. In 1865 she married Prof. C. F. Childs, who was principal of the old high school, and who died a year after the marriage. Mrs. Childs began teaching soon after her graduation from high school and kept at the work steadily, with the exception of the year following her marriage. She became a principal 14 years ago, and before 12 years in that capacity at Bryan Hill.

Men of the 138th (St. Louis) Regiment were entertained by the Women's Auxiliary at the First Regiment Armory, Grand avenue and Market street; the 128th Field Artillerymen were entertained at Hotel Statler by their auxiliary, while St. Louisans of other units, comprising virtually all branches of the service, gathered at special meetings of many of the American Legion posts and talked over again their experiences in the world's greatest war.

About 600 former members of the 138th attended the reception and dance at the Armory, where there was a period of 30 seconds of silence at 11 o'clock for those of the regiment who were buried in France and those who have passed away in the last year.

Then followed the grand march, led by Mayor Kiel and Mrs. John Hoffman, member of the combined forces of the 138th and 128th regiments, who were followed by the delegates that America was best behind the curtain in industrial development.

"If America is to compete with Europe," he added, "we must not scorn foreign methods because they differ from ours. We must learn what we know with what experience we have gained. The next few years will be a race for the commercial supremacy of the world."

Business Had \$2000 Debts and  
He Finds It Was \$4500.

Samuel Rosenberg, 57 years old, of 4004 Delmar boulevard, was arrested at his home today by the request of Assistant Circuit Attorney Feehan, pending investigation of a complaint that he sold a store at 618 North Vandeventer avenue to Max Edelstein through false representations.

Edelstein told the Circuit Attorney that he bought the store last Monday, paying \$300 cash and a check for \$2700. He said it was represented that the store had only \$2000 of debts, but that he found the debt was \$4500.

Rosenberg last Tuesday afternoon reported to the police that after cashing a \$3700 check at the Franklin Bank he lost the money. The check, he said, had been paid to him in a real estate deal.

Promptly at 11 o'clock all street cars stopped, as did some automobiles, and pedestrians. A luncheon, attended by about 300 persons was given at Planters Hotel by the Chamber of Commerce, at which were officers of all American Legion posts and the Red Cross. A prayer was offered by Father Kennedy, followed by a minute of complete silence. Col. S. B. Philpot, war-time commander of the Fourth Infantry; Col. E. J. Spencer, Lieutenant-Colonel Robert Burkham spoke.

There were periods of silence at 11 o'clock in the hotel dining rooms also and at the Statler 22 wounded soldiers from Jefferson Barracks were entertained at luncheon.

## MORAL EFFECT OF MOVIES BAD, CHICAGO CENSOR HEAD SAYS

Ten Other Counts Against Them  
Presented to National League  
of Compulsory Education.

By the Associated Press.  
CHICAGO, Nov. 12.—T. D. Hurley, chairman of the Censorship Commission of Chicago, told the National League of Compulsory Education, in session here, that motion pictures should be indicted on 11 counts. Among the charges he made against them are:

They interfere with school work. The moral effect is injurious. The view of life which the movies presents is false. That sex and vampire films are shown to children. Children lose respect for authority after seeing some films. Children from 7 years up are precocious on the sex question. There is a noticeable disregard for marriage relations in the films and they have a bad effect on modesty and purity. They become dissatisfied with their homes. The eye strain is severe, nerves are affected and there is decreased vitality and dulled mentality. The effect on the rising generation as a whole is bad. The average attendance of children of school age is from two to three times a week.

## ST. LOUISANS SAYS EUROPE IS ADVANCING IN INDUSTRY

D. P. Farnham, Who Made Tour of  
Investigation Abroad, Addresses  
Engineers at Pittsburgh.

By the Associated Press.  
PITTSBURGH, Pa., Nov. 12.—"Unless America gets her industrial house in order and quits dreaming about continued industrial supremacy, she will awaken to find Europe in her markets competing against her with better material at less cost," D. P. Farnham of St. Louis said in addressing the annual convention of the Society of Industrial Engineers here yesterday.

Farnham, member of a commercial mission, which returned two weeks ago from a tour of England, France, Germany and Italy, told the delegates that America was best behind the curtain in industrial development.

"If America is to compete with Europe," he added, "we must not scorn foreign methods because they differ from ours. We must learn what we know with what experience we have gained. The next few years will be a race for the commercial supremacy of the world."

Firemen told the police that they had signaled the street car to stop. William Brashner of 5659 Kennerly avenue, motorman of the car, said he saw no signals. The truck was struck in the center and damaged \$1000. The other firemen were cut and bruised. The truck was responding to a fire in an asphalt at 4217 Washington boulevard.

## NOTED RABBI AND EDITOR, WHO IS DEAD

The funeral of Rabbi Morris Spitz of Temple B'nai El, editor of The Jewish Voice, will be held from the temple, Flad and Spring avenues, at 10 o'clock Sunday morning. Dr. Spitz, who was 72 years old, died yesterday afternoon at his home, 3539 Flora court, following a three weeks' illness from a liver disorder.

All rabbis of St. Louis Jewish congregations, both Reformed and Orthodox, are expected to take part in the funeral. Rabbi Samuel Thurman will say the opening prayer. Rabbi Abraham Halpin will recite the ritual in Hebrew, and Rabbi Leon Harrison, Samuel Sale and Julian Miller are to speak, followed by the closing prayer by Rabbi Louis Witt. The burial will be in Mount Sinai Cemetery.

Dr. Spitz retired from the active rabbinate in September, 1919, after having been in charge of the congregation of Temple B'nai El for 41 years. The title of Rabbi for life was voted to him by the congregation. Rabbi Julian Miller succeeded him in active charge. The congregation occupied a building on Chouteau avenue, near Twelfth street, before the removal to the Flad avenue site 14 years ago. The name "B'nai El" means "Children of God."

Was Familiar Figure.

Dr. Spitz was a familiar figure on downtown streets, where he was seen daily, the office of his weekly publication being in a downtown building. He wore a clerical frock coat and white tie in all seasons, and usually wore a silk hat. He was a native of Hungary, and was educated in Prague, Bohemia. He came to the United States in 1871 and lived first in Chicago, then in Milwaukee, and was called to St. Louis in 1878. He was married in 1872 to Miss Esther Bloch of Cleveland. Mrs. Spitz and five children, Isadore, Alma, Selma and Edna Spitz, and Mrs. D. L. Neuhouser, survive him. The son and the married daughter live in Chicago, and the other daughters live in St. Louis.

The Jewish Voice, which Dr. Spitz established in 1879, was one of the most widely read of the publications of Reformed Judaism.

Congregation Increased.

Temple B'nai El, while Dr. Spitz was actively in charge of it, grew from a small membership to the present constituency of several hundred. Two other congregations grew out of it, in the course of the city's development.

When a Christian Science congregation was established in the neighborhood of Temple B'nai El, Rabbi Spitz tendered the use of the temple to the Scientists for Sunday services. This arrangement continued for some time.

## AMERICANS' PLANS FOR CHINA

WASHINGTON, Nov. 12.—Speaking for the American group of bankers in the consortium for China, Thomas W. Lamont, of New York, declares in a letter made public here today by the Far East Commercial Intelligence Service that no preference will be extended to any particular business interests in the undertakings that are contemplated. "I have authority to speak for the other groups," said Lamont, "but my conferences with them convince me that their attitude is identical with ours. Our aim is to aid China in developing her great basic enterprises, such as means of transportation, etc., and at the same time to protect both China and the foreign investors who purchase her bonds in the underlying and intrinsic value of the enterprise for which she borrows and they loan."

## FIRE DAMAGES SHOE STORE

Six Persons Rescued From Home on  
Second Floor of Building.

Fire was discovered at 12:15 o'clock this morning by a passerby in the building at 2613 Cherokee street, occupied by Simon Schletsky, with a shoe store on the first floor. An alarm was sounded and Patrolman Seeger of the Wyoming Street Station, who walks that beat, ran to the house and aroused Schletsky and helped rescue the Schletsky's wife and five children.

Schletsky estimated the building and contents was damaged about \$5000. The fire started in the basement, presumably from an overheated furnace.

## Tools a Workman Respects

The man who makes his living with his hands, has a real respect for his tools. Upon them depends his reputation as a skilled workman.

Keen Kutter tools are a real joy to the man who respects his tools.

Just to hold a Keen Kutter drawing knife in one's hands, proves that the man who made it knows what perfect balance and design mean to the man who uses tools.

To see how it holds its edge under daily use, adds to the workman's respect for it.

The blade of a Keen Kutter drawing knife is made of one piece of steel. It is so treated that its texture is wonderfully fine, and tempered to exactly the right degree to retain its edge without being brittle.

That is the Keen Kutter standard.

## LAWYERS DISAGREE ON FEES IN METHUDY CASE

Mrs. Methudy's Attorneys Place  
cost of Appeal at \$5000—  
Others Say \$750.

Lawyers disagreed widely as to the value of lawyers' services, when called to testify as expert witnesses today in the case of Mrs. Edna R. Methudy of 1722 Waverly place, who is asking that Eugene R. Methudy, her former husband, be ordered to pay her an allowance and a sum for attorney fees.

Methudy recently obtained a divorce, and Mrs. Methudy is appealing the case. She asked the Court to order Methudy to pay her an allowance, estimated at the proper amount at \$750 to \$1000.

Methudy is being paid \$160 a month, she said, and she wants to be assured that she will continue to receive an allowance until the appeal is decided. She testified that she once heard her husband place his wealth at \$300,000.

Methudy on the stand denied that he ever made such a statement. He said he had stock on hand at the Methudy Tire and Rubber Co., 2459 Lindell boulevard, amounting to about \$135,000, and had debts of \$100,000. He said the tire business has been very bad, and he understands that by next Monday the price of standard tires will be cut again.

Edward F. Lasar of 5092 Raymond avenue, president of the Lasar Manufacturing Co., whose third wife obtained a divorce last year, was married last night for the fourth time, the bride being Mrs. Nellie S. The ceremony was performed by the Rev. E. Comble Smith at Mrs. Kasper's home, 1328 Aubert avenue, and the only guests were her two married daughters and Lasar's son and two daughters. The couple departed immediately for Excelsior Springs.

Mrs. Lasar also is president of a manufacturing concern—the Kasper Stamp and Seal Co., 1102 Locust street, but has not been active in the management recently.

Lasar and Mrs. Kasper's first husband were close friends and often went together on hunting and fishing trips, members of the family said today. The families had been friendly for many years.

Lasar's third wife, Mrs. Lucia Lasar, whom he was married in 1907, obtained a divorce last year on charges of cruelty and neglect, alleging that Lasar stopped her credit at the stores, called her names, and refused to let her entertain her church societies at their home. She stated he was worth about \$100,000, and his second wife was divorced in 1906.

Mrs. Lasar's daughters are Mrs. John Rahn and Mrs. George Boon of Webster Groves, who married brothers. Lasar's children are Edward, Marjorie and Madeline Lasar. Upon their return, the couple will reside at Mrs. Lasar's residence.

### "Why, My Dear!"

CAN this be St. Louis? The atmosphere is truly metropolitan. I have a feeling that Fifth Avenue must be just outside." Thus came the spontaneous comment of a lady, as she stood in the doorway and surveyed the vast extent of our well-planned interior, one day this week.

We were flattered, of course, and gratified, for her comment meant to us public recognition of our endeavors.

We have brought to our Middle West establishment the elegance, the cachet, the charm of long-established Eastern institutions. The surroundings are but a proper setting for the goods displayed.

Our greatest pleasure comes from realizing that these things are appreciated and enjoyed by our patrons.

## BANK TELLER SAID TO HAVE CONFESSED

"I Did the Whole Thing Myself," Illinoisan Says According to Sheriff.

OTTAWA, Ill., Nov. 12.—Admission that he "engineered the whole thing" was made last night, according to county officials, by Francis J. Carey, 21-year-old teller of the National Bank of Ottawa, who saved himself up following the robbery of the bank Wednesday night. Most of the \$45,000 taken has been recovered, \$500 being added last night. Carey disappeared after the robbery, and it was at first thought he had been locked in the vault.

He was found at the farmhouse of Mat Corwin, four miles south of Ottawa, Ill., into which he staggered late in the day, footsore and weary. Following a telephone call to Charles P. Taylor, president of the bank, in which Carey said he would await the arrival of Sheriff C. S. Ayer, he was brought back to Ottawa and made his reported confession.

In the presence of his mother, Mrs. Mary Carey, Sheriff Ayer announced that Carey made this statement: "I did the whole job. I engineered the whole thing myself. I cannot explain the presence of anyone in the alley. When I went home to supper last night I stuffed \$500 in bills in my pocket. At home I hid it under the mattress. After supper I went back to get the rest of the money. When I left the bank I ran out the road. I walked for miles and miles in the dark."

Carey denied the Sheriff said, knowledge of the disappearance of \$4000 of the loot. He had \$2 in his pocket. Authorities said a charge of burglary probably would be placed against Carey.

Sheriff Ayer said that a shoebox containing \$40,000, which was found following the discovery of the robbery, apparently had slipped from the young man's hand while he was going over the roof of the bank, on which he had climbed to enter the building. The \$500 recovered last night was found under a mattress at Carey's home.

It was at first thought that Carey had been locked in the vault by robbers and strenuous efforts were made to open the vault door. Finally, with the aid of two local garage employees, who melted off the door with blast torches, entrance was gained to the inclosure to find it empty.

## SPEEDER FINED AND TOLD THIRD OFFENSE WILL COST LICENSE

Youth Assessed \$75 and Costs for Driving 30 Miles and Given View of "Death Chart."

He also showed Klein the "death chart," showing the number of motor fatalities in the city this year and the places where they had occurred.

AMHERST DEAN PRAISES  
STUDENTS' PART IN WAR

Dr. George D. Olds Delivers  
Armistice Day Address at  
Soldan High School.

Dr. George D. Olds, dean and acting president of Amherst College, who made the last speech of his tour of the country to promote interest among alumni in the Amherst centennial next June, at a dinner at the University Club Wednesday night, delivered the Armistice day address at Soldan High School yesterday.

"This occasion is of special interest to boys in schools and colleges," he said, "because, in this war, as in previous wars, the boys in such institutions were among the first to volunteer, and a large proportion of the commissioned officers came from educational institutions.

"Our wars—the Revolution, the Second War of Independence, the Civil War, the war with Spain, and this last great struggle—all of them except the Mexican War—have been waged in the interest of liberty. A liberal education means freedom. One of its great purposes is to set the minds of students free from prejudice by imparting knowledge, giving training and implanting ideals."

**Urges Liberal Education.**  
Vocational training, he said, should be preceded by liberal education, not merely the amount demanded by professional schools, but a full college course. In which, he said, the student should avoid studies bearing as his intended calling, and stress "cultural" or broadening subjects.

Besides the alertness of the trained mind, he said, the man with a liberal education has over the man not so equipped a decided advantage in the personal association which enters largely into any vocation, in that he can deal more successfully with even the uneducated. He quoted as authority the statements of three famous professional men, a lawyer, a physician, and an engineer.

**Important Part in War.**  
Returning to the occasion of his address, he continued: "Armistice day is intended primarily to remind us of the supreme sacrifice so many made in the interest of real freedom. While you probably had no active part in the great war, you shall yet play an important part, because you will make up the next generation, which will determine the conditions under which we are to live in peace in our economic, political and international relations.

"I am assured that you are no less inspired by the spirit of unselfishness and service than were the boys from Soldan and the thousands of others who lost their lives in France."

Dr. Olds is acting as president of the college during the vacation of President Alexander Melickjohn. He has been dean for years. Vice President-elect Coolidge, class of '98, was a freshman mathematics pupil in his first class.

MAN WITHOUT PISTOL HANGS  
SELF TO BEDPOST IN HOME

Shoe Repairer Leaves Note Telling  
Why He Did Not Shoot  
Himself.

William Logner, 60 years old, who had a shoe repair shop and lived at 1114 South Eleventh street, was found dead from strangulation at his home at 5 o'clock yesterday afternoon by a policeman who forced an entrance to the house through a window when neighbors reported they had not seen Logner for several days.

There was a strap looped around Logner's neck and fastened to the bedpost. He left a note in his native language, explaining that he decided to hang himself because he had no money to pay his debts. He is said to have a divorced wife and five children in Collinsville, Ill. The body was taken to the morgue. He was a native of Bohemia.

## REPUBLICAN STATE SENATORS TO MEET HERE NOVEMBER 20

Conference Called by Lieutenant-Governor-Elect to Enable New and Old Members to Get Acquainted.

### LEGISLATION PLANS TO BE TAKEN UP

G. O. P. With 18 Members Confident of Majority and of Electing Republican to Succeed Elder.

The 18 Republicans who are expected to be members of the Senate at the next session of the State Legislature, and Senator Conway Elder of the Thirty-second (St. Louis) District, who is expected to resign soon because of his election to the Supreme Court, will attend a conference at the Planters Hotel, Saturday morning, Nov. 20, called by Hiram Lloyd, Lieutenant Governor-elect. This conference was decided upon at a meeting yesterday afternoon in which Lloyd and the four Republican Senators from St. Louis participated.

Lloyd said today that the object of the conference largely is to enable the new Senators and the old to become acquainted. It is expected, however, that plans for organizing the Senate and a tentative plan for at least some of the legislation to be taken up when the Legislature convenes in January, will be gone over by the Senators and Senators-elect.

The Republicans are confident of having a working majority in the Senate, maintaining that 11 Republicans have been elected. In addition to the seven holdovers. The race in two of these districts, however, is said to be close, hence the size of the majority will not be known of a certainty until the official count is made. Republicans, however, are confident of electing one of their number to succeed Elder in the Thirty-second.

In their confidence as to the result, Republican Senators and Senators-elect already are declaring their candidacy for president pro tem. Senator Howard Gray of Carthage, holdover in the Twenty-sixth District, is said to be the strongest candidate yet in the running, because of his popularity with Senators from other districts, largely rural, though William C. Irwin of Jefferson City, Senator-elect from the Twenty-seventh District, also is a candidate.

Anderson to Waive Claim. Senator Anderson of the Thirty-fourth (St. Louis) District, will be the senior Republican in the Senate, but it is understood that he will waive whatever claim to be president pro tem, that fact would give him, because Lloyd, the presiding officer of the Senate, is a St. Louisan.

Selection of candidates by the Republican and Democratic parties for the place expected to be vacated by Elder, probably will await his resignation. The nominations will be made by the eight city committees of each party whose wards, or parts of wards, constitute the Thirty-second District. It contains all of the Seventeenth, Twenty-third and Twenty-fifth wards and parts of the Thirteenth, Fourteenth, Sixteenth, Twenty-fourth and Twenty-eighth.

No Democrat yet has indicated a desire to run for the place. The district went Republican in 1918 by about 2400. Several of the Democratic committeemen for a time considered the advisability of having a woman candidate, but the State Constitution provides that Senators must be male citizens. A number of Republicans are in a receptive attitude toward the nomination.

### "PAY IN CONGRESS TOO LOW"

BUFFALO, N. Y., Nov. 12.—"The salary of Congressmen is too small to attract men of ability unless they are in business and can afford to be away from their work," declared Representative J. M. Small of North Carolina in an address before the Rotary Club here yesterday.

"I am retiring from Congress next year after 22 years of service for the simple reason that I cannot afford to continue on the job."

"I've got to get out and earn something. I know of half a dozen members retiring for the same reason. The type of men now going to

Because of the cooler weather St. Louis is having, families prefer to stay indoors and as a consequence the parks, boulevards and county roads have had considerably less night traffic.

Immediately the thought is uppermost in the mind of the home-maker to effect as cheerful and inviting an interior as it is possible, for the long winter evenings. ### NEW ELECTION LAW PROPOSED

Special to the Post-Dispatch.  
KANSAS CITY, Nov. 12.—A legislative program in accordance with Republican pledges for Kansas City was urged yesterday at a meeting of a committee of attorneys with David M. Proctor, Senator elect, and M. A. O'Donnell, Representative elect. The program includes a new election law, a law abolishing the present Criminal Court by the transfer of its jurisdiction to the several divisions of the Circuit Court; a law virtually abolishing the Justice of the Peace courts through the creation of a new court with jurisdiction over minor civil suits, preliminary hearings and misdemeanor cases, and a law redistricting the congressional, senatorial and representative districts, eliminating the Democratic gerrymander. The committee agreed to have the proposed laws introduced immediately after the Legislature convenes in January. It was agreed any new law governing elections should include a clause simplifying the Missouri ballot, and another to enable the Election Commissioners to prevent padding of the registration lists.

SATURDAY  
6:30 P. M.WINTER FOUND DEAD  
UNDER CLUBHOUSE

Man Believed to Have Shot Self  
Accidentally, Then Ended  
Life to Stop Suffering.

Clarence A. Ross, 28 years old, of 4117 Cleveland avenue, a conductor employed by the Terminal Railroad Association, was found dead at 4 o'clock yesterday afternoon under an unoccupied clubhouse on the north bank of the Meramec River, midway between Valley Park and Meramec Highlands, with gunshot wounds in his body and left wrist. A man and woman who passed the place and notified the Valley Park authorities. One charge of shot was in his left breast and the other in his abdomen, and a few minutes later he shot himself in the wrist.

Believe He Shot Himself.  
An inquest at Valley Park last evening, conducted by Coroner Denny, returned an open verdict. Dr. Denny expressed the belief that Ross had accidentally shot himself in the stomach and then, finding himself in a secluded spot and far from aid—the nearest occupied clubhouse being a quarter of a mile distant—shot himself again to relieve his suffering.

About 15 feet from the clubhouse where Ross crawled is a stump, near which the shotgun was found, together with an open pocket-knife, and from the stump to the clubhouse was a trail of blood. The man and woman who discovered the body found a pool of blood at the base of the stump and followed the trail to where Ross' body lay. They notified A. E. Stilla, occupant of a clubhouse a quarter of a mile away, who informed the Coroner.

Hammer of Gun Bent.  
One hammer of the shotgun was bent, as though it had fallen and discharged the gun. Coroner Denny thinks this was the accidental shot. There were bloody finger marks on the shotgun, but none on the knife.

Ross is survived by his wife and one child. His body was identified by a hunter's license in his pocket. A relative testified at the inquest that he left home to go hunting yesterday morning.

Woman Gets Notes Signed "The Black Hand," Demanding Money.  
Mrs. Catherine Davis, 7321 Canterbury avenue, gave the police two notes last evening signed "The Black Hand," threatening to kidnap one of her children and blow up the home unless her husband, John, deposited \$800 in a tin can at a designated spot in a vacant lot across the street from her home.

Mrs. Davis wants "The Black Hand" to know she hasn't \$800 to spare.

Reindeer Meat for U. S. Market.

The Associated Press.  
SEATTLE, Wash., Nov. 12.—Meat packers at Nome, Alaska, will be prepared to ship at least 6000 reindeer carcasses to American markets through Seattle next year, Carl J. Jensen of Nome said here last night.

Some interests are building two additional refrigerating plants at Upernivik and Golovin, near Nome, and plan to establish a string of such plants along the coast of Alaska. The reindeer herd owned by one company in the vicinity of Nome numbers more than 25,000 animals, Jensen said.

## MAN WHOSE WIFE WAS SLAIN IN CAFE ACQUITTED

**Texas Freed on Testimony Shots  
Were Fired at Man Who  
Was Annoying Her.**

Upon his testimony that the shots which killed his wife were fired at a mysterious stranger who was annoying her, a jury yesterday acquitted John W. Stephens, a switchman of Mart, Tex., charged with first degree murder for killing Mrs. Leslie Stephens in a cafe at 1433 Market street, last June 24. Stephens is 23 years old; his wife was 22.

Stephens testified that they were sitting at a table in the cafe when a man entered, took Mrs. Stephens by the arm and told her to go with him. Stephens said that he protested, whereupon the stranger drew a revolver and snapped at him. At this

Stephens said, he drew his own revolver and fired three shots. When the smoke cleared away, Mrs. Stephens was on the floor and the stranger was gone, Stephens testified. Joseph Daneri, proprietor of the cafe, testified yesterday that he heard the shots and ran in from the bar. He said Stephens, who was standing over his wife with a revolver in his hand, exhibited a bullet wound in his own thigh and said: "Well, I got her and I got myself." The State contended that Stephens killed his wife because he learned she had been going out with other men during his absence. The jury was out an hour and 15 minutes and then returned a verdict of not guilty.

## THREE PROPOSALS TO BE MADE TO LEAGUE ASSEMBLY BY JAPAN

One is Designed to Secure Assurances Against Discriminations in Tariffs and Raw Material.

By the Associated Press.

TOKIO, Nov. 12.—Japanese delegates now in Geneva to attend the meeting of the Assembly of the League of Nations have been sent cabled instructions giving them wide discretion regarding race equality proposals, says the Asahi Shimbun of Osaka.

The opinion of the Cabinet is said to be divided between the conviction that the present time is inopportune for such proposals, and the fear that objecting nations might take political advantage of the situation.

Three proposals have been drafted by the Japanese delegates. One is designed to secure assurances from the league against discrimination respecting tariffs and raw material. The proposals probably will be presented if prospects are deemed favorable.

## FRIENDS EXPECT CHAMP CLARK TO GO ON LECTURE PLATFORM

Defeated Congressman Also Expected to Run Against Reed for Senate in 1922.

Special to the Post-Dispatch.

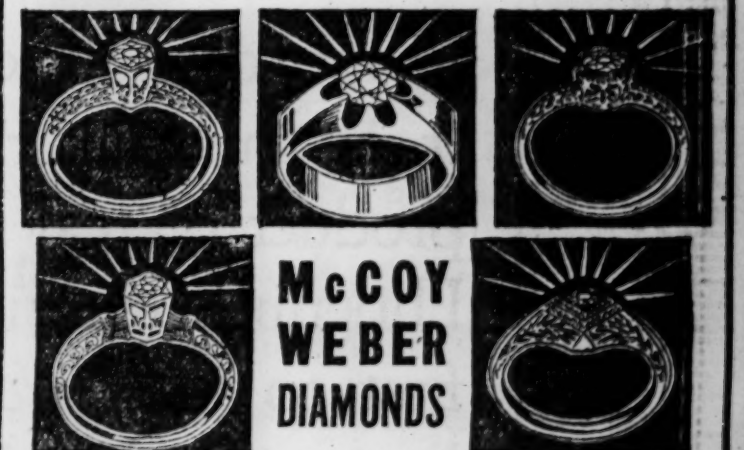

WASHINGTON, Nov. 12.—Some of the friends of Champ Clark in Washington believe he will spend the next two years on the lecture platform and make the race in Missouri two years hence to succeed Senator James A. Reed. Clark had been a lecturer off and on for years. Among his lectures are one on Daniel Webster and another on Aaron Burr. The lecture most favorable to him is said to be "Picturesque Public Men."

The ex-Speaker is the third oldest man in point of service in the House. "Uncle Joe" Cannon and Speaker Gillett alone have served longer. 44 and 28 years respectively. Clark will have been in the House 24 years when his present term expires, in continuous service. Gillett alone is ahead of him.

al Church. The Rev. Samuel H. Woodrow will officiate in the presence of a large gathering. Mrs. Perry M. Hanson, sister of the bride, will be the matron of honor, and the bridesmaids will include Misses Virginia Fowler and Ruth Wilson. The bride's brother, C. Ray Miller, will serve Mr. Harris as best man, and the ushers and groomsmen will be Perry Hanson, Earl Jordan, Roland Fowler and Harold Jordan. Little Helen Hazard will be flower girl. An interesting event of tomorrow evening will be the opening reception at the Artists' Guild in honor of the eighth competitive annual exhibition. Fashionable women have been absorbed this week in preparations for the Women's Exposition, which will be held next week at the Coliseum under the auspices of the Board of Religious Organizations. Debutantes are being filmed for the

mystery melodrama, in which Miss Ada Johnson, the Veiled Prophet Queen, will be starred, and also for the fashion show movie. Mrs. N. A. McMillan, Mrs. Oscar Johnson, Mrs. Harry Potter and Mrs. Hayward Niedringhaus, as film chairmen, have enlisted the aid of many of the prominent young men as well as the girls.

Exhibits will be filled with Christmas gift novelties, gathered from all parts of the world, including Oriental treasures, American Indian pottery and California delicacies. In addition, there will be a profusion of hand-made garments and articles made by St. Louis women. One of the most interesting exhibits will be that of Mrs. Peyton T. Carr, who has gathered a great number of beautiful quilts, ranging from quaint

old-fashioned patchwork designs to handsome silk and satin effects. Mrs. Carr is assisted by Mesdames Wallace D. Simmons, J. Porter Thrill,

William S. McChesney, Edward Love, Albert Terry, Mahlon Williams, H. Blakesley Collins, Nathaniel Alton and Miss Maud Gamble.

## TOASTS DRUNK IN SALOON LEAD TO HOLDUP ARRESTS

Police Say Bartender and Another Have Confessed to Part in East St. Louis Saloon Robbery.

"HERE'S TO THE LAND OF EASY MONEY"

Story of the Holdup as Given to the Police; Three Men Were Placed in an Icebox.

Toasts drunk to "East St. Louis, the land of easy money," in the saloon of Mike Balosi, Eleventh and Chestnut streets, last Monday evening, caused the arrest of Balosi, Frank Cantoni, his bartender, and James Howard on the charge of having participated in the holdup of the saloon of William Garvey, Fifteenth and Broadway, East St. Louis, Monday noon, in which Garvey says about \$2000 in cash was obtained.

Howard and Cantoni, the police say, have signed statements that they participated in the robbery. They say that a third man planned and directed the robbery, but deny that he was Balosi.

After the robbery the men are alleged to have moved to Mike Balosi's, at Balosi's, and divided the loot. They remained there and spent some of it and several times this toast was proposed: "Here's to East St. Louis, the land of easy money." The police heard about the toast and the arrests followed.

Visit to Garvey's Place.

Cantoni said that Howard and the other man visited Garvey's place Sunday evening, and Monday morning they asked him to accompany them to East St. Louis "to get some easy money." The two called upon him while he was at work in Balosi's saloon. The leader said he had to wait for a telephone message from East St. Louis. After he answered a call he told Howard and Cantoni everything was all right. After a while, he said, a man called at the saloon and gave the leader two revolvers.

Cantoni said, according to the statement that when he ordered Garvey to hold up his hands, Garvey asked: "What is the matter?" He said he then became frightened and started to leave the place, whereupon the leader pointed a revolver at him, saying: "Come back here, before I put a hole in you." He went into the barroom and while he was taking the money from a cash drawer, Howard and the other man placed Garvey and two others in the icebox.

Garvey reported that the robbers obtained about \$2000. Cantoni in his statement said he got \$710, which he placed in his coat pocket. As he ran through an alley, he said, he transferred the money from his coat pocket to his hip pocket, and said it is possible that he dropped some.

## DOCTOR FILES ON AN ESTATE AHEAD OF PUBLIC ADMINISTRATOR

Letters Granted to Dr. J. P. Ghio a Few Hours After Death of J. S. Caldwell, Horse Dealer.

Joseph S. Caldwell, a horse and mule dealer at 1521 North Broadway, died yesterday at Bethesda hospital after a surgical operation.

A few hours after his death letters of administration on his estate were granted to his friend, Dr. Joseph P. Ghio, 6120 Washington avenue, on notice filed by the latter that Caldwell did not leave a will. When a representative of the Public Administrator's office appeared and he found that Dr. Ghio was in ahead of him. The value of the estate was placed at \$7500. Caldwell's heirs were given as his wife, Mrs. Clara Caldwell of Los Angeles, and a brother and sister, Caldwell, who lived at the Laclede Hotel, entered the hospital a week ago. He was about 55 years old.

Anti-Saloon League to Appeal to Harding—Declares Decision Makes Action Necessary.

50,000,000 GALLONS  
IN WAREHOUSES

Prohibition Forces Would Have It Disposed of Legally and Proceeds Returned to Owners.

Special to the Post-Dispatch.  
WASHINGTON, Nov. 12.—The Anti-Saloon League will endeavor to get President-elect Harding to recommend in his first message to Congress the taking over of all liquors held in bonded warehouses. The Supreme Court decision on storage removal gave the extreme prohibitionists a jolt and started them on a scheme to stop any possible leak.

On Aug. 1, 1917, Senator Harding declared in favor of compensating the liquor interests for their losses through the prohibition amendment. There are now approximately 50,000,000 gallons of whiskey, gin and brandy in bonded warehouses. This is being withdrawn at the rate of about 4,000,000 gallons a month.

"The Supreme Court decision," said Wayne B. Wheeler, legislative agent of the league, "furnishes another good reason why the Government should take over all the liquor in bond, dispose of it for legal purposes and return the proceeds to the owners. As long as these liquors may be stored the Government will have trouble in enforcing the law, and it will open the way to fraud in connection with transporting them."

As Wheeler sees it, the Wheeler's opinion those conducting an illicit traffic in intoxicants could not gain directly by the action of the court. "As I understand the decision," said he, "it only applies to liquors which were lawfully possessed in good faith for the owner's personal use before the law went into effect. There will not be a large number who can legally take advantage of this. Most of those who wanted liquor had it transferred to their homes before Feb. 1, 1919. The eighteenth amendment and the law prohibit the transportation of liquor for beverage purposes, and make possession of liquor after Feb. 1, 1919, prima facie evidence under the Volstead act of illegal possession."

That the decision will not profit bootleggers is also the opinion of Treasury Department officials. Commissioner Williams of the Bureau of Internal Revenue thinks that some misunderstanding of the meaning of the decision may lead bootleggers into trouble. His experts in the prohibition unit are unable to see how any except those who lawfully hold liquor deposits for a legitimate purpose can get any comfort out of the opinion.

**Limits on Transportation.**  
The decision will permit the use within the law of approximately 10,000,000 gallons stored away by private citizens. It was pointed out by agents that the court guarded against any illegal transportation of liquor stored, citing the declaration of Justice Clarke:

"Clearly there is like administrative power under the act to regulate the transfer of such stored liquors from a warehouse to the dwelling of the owner as to prevent their being used to evade the prohibition of the act or substantially interfere with its effective enforcement."

Many legal battles for the return of liquor purchased for personal use and seized by Government agents will be started now. In the District of Columbia many gallons of liquor, taken from Washington people who had brought it from Baltimore for personal consumption are held. Lawyers will start suits to get this back, arguing that the owners had a right to transport it under the decision.

**Passes for Officials.**  
Legal officials of the department foresee that the question would be:

#### DROP IN TEMPERATURE CAUSES DECREASE IN AUTOMOBILING AND JOY RIDING

Because of the cooler weather St. Louis is having families prefer to stay indoors and as a consequence the parks, boulevards and country roads have had considerably less night traffic.

Immediately the thought is uppermost in the mind of the home-maker to effect as cheerful and inviting an interior as it is possible for the long winter evenings. At the Prudock-Litton Furniture Store at Fourth and St. Charles streets may be found just the suite or odd piece of furniture needed to give the necessary touch of comfort and warmth in the home. It is well worth your while to inspect the special suites of furniture—rare values—on which they are allowing a reduction of \$100 from the present prices.

once come up as to what constitutes a warehouse. It was feared that an effort might be made to stretch the term to cover other places of storage than those commonly accepted as coming under the definition. One point on which a test case might be made, it was said, is whether or not a man who locked up liquor in a

store on Jan. 14 would be entitled to regard that as a "commercial warehouse" for his own purposes and to remove the liquor therefrom for use as a beverage.

The opinion was ventured by the legal department of the Prohibition Enforcement Bureau that the decision would not affect the ban which

has been placed on the removal of liquor from a permanent to a summer residence, or vice versa. Under the law as now construed, a person may take his liquor with him when he moves from one permanent residence to another, but he may not shift it back and forth between two places of abode.

## HAVANA PRICES DOUBLE HIGH MARKS IN STATES

Straw Hats Only Thing That Sell  
Anywhere Close to Ameri-  
can Figures.

Correspondence of the Associated Press.  
HAVANA, Oct. 26.—American women, disturbed by the mounting cost of living, ought to come to Cuba. The trip would make them satisfied with conditions at home. Broadly speaking, prices in Havana are just about double the high mark in American cities. One cause, according to dealers, is the unprecedented port congestion, apparently with little hope of early clearing, and which has resulted in the ruin of hundreds of tons of necessary products. Whatever the cause, the island is going through a period of high cost, described by papers here as more burdensome than that found elsewhere on the face of the earth.

Even here, where it is produced in sufficient bulk to supply millions elsewhere, sugar retails on the Havana market around 24 cents a pound. Sirapap, going to waste a few miles from town, sells at New York quotations. Financial depression, the demand for ready and available cash, and the moratorium, under which banks limit withdrawals to 10 per cent, have failed to start price reductions in the hope of unloading luxuries to meet weekly pay rolls. Until the moratorium ends, Dec. 1, hotels will not permit patrons to sign bar and cafe checks, a time-honored custom here. Cash is needed and a man pays when he eats.

Conditions in Havana are of little concern to the wealthy element from the States that will be coming here soon by the thousands for the winter and racing season. But for folk of ordinary means, with two weeks for recreation, a big bank roll is needed. About the lowest hotel rate is \$7 a day for room and bath. And this is not at the best places. For there rates are much higher, and along toward the middle of November the \$7 rooms will fetch \$15.

Americans living in Havana pour out a tale of woe to friends from the States. The women seem to be hit the hardest. Price tags in stores selling men's wear show that a good pair of men's low shoes costs as high as \$28. The rainy season is not ended and \$8 for a cotton umbrella is a "bargain." Flannel trousers are there for \$25 and silk shirts for \$10. A lot of odds and ends that a man needs cost more than twice the mark at home. The correspondent saw a Panama hat valued at \$450 and the dealer declared that sugar men pay it without blinking.

Cigarettes selling for 20 cents a package at home cost 60 cents here, and for a \$2 box of American candy they ask \$7. Two-cent American papers, three days old, cost 12 cents. You may get a reasonably fair suit of clothes out of stock for \$100. In most cases women's shirt waists, it was explained, cost three times the home figure. The only exception in the upward trend is the straw hat, the cost of which is about on the American scale.

The only paper money in circulation here is American. The bills are so worn and utterly filthy that a man parts with them rather gladly.

## TEXAS WOMAN, WHO KILLED SELF, IN FINANCIAL STRAITS

Bills at Hotel Were Overdue and She  
Had Tried to Pawn Her Last Ar-  
ticle of Jewelry.

By the Associated Press.  
CHICAGO, Nov. 12.—Testimony given before Coroner Hoffman of Miss Theodora Sanders' last desperate effort to obtain the financial aid which would have permitted her to remain near the man she loved before she stabbed herself to death last Tuesday, was revealed today. Her bills at the hotel were overdue, and so she decided to pawn her only article of jewelry, a diamond stickpin, witnesses said, rather than return to her home in Laredo, Tex.

Fred W. York, a diamond broker, related how she had visited his office on Monday afternoon. She was pathetically eager to dispose of the pin, he said. "She told me a girl friend had died and she wished to send a remembrance to her parents," he said. "I looked at the pin. The diamond had a flaw."

"Won't you please buy it?" she pleaded. "Leave it with me. I'll let you know," I said. She left. She returned in two hours.

"I am despondent, unhappy," she said. "I do hope you are going to buy the pin. That will help me a little." He told her he couldn't buy it, as the value was slight.

Miss Sanders visited the offices of three other diamond brokers in the building. None would buy the pin. She appealed in vain to the elevator operator as she left the building.

The Coroner will continue the inquest until a complete investigation has been concluded.

NEXT TUESDAY****Citizens' Committee Headed  
by Mrs. M. G. Seelig to  
Meet in Vandervoort Au-  
ditorium That Day.**

Mrs. George Hoxie, wife of a Kansas City physician and president of the Consumers' League there, will come to St. Louis Tuesday to relate experiences of Kansas City women in an eight years' fight for pure milk, which may be of value to St. Louis women, now beginning an effort to obtain pure milk for St. Louis.

Her talk will be at the first meeting of the Citizens' Milk Committee in the Vandervoort auditorium at 10:30 a. m. The committee is an alliance of about 20 organizations for the campaign. Organizations not so far allied and individuals desiring to aid the campaign are asked to come to the meeting.

Mrs. Hoxie, in a letter of acceptance of the invitation to come to St. Louis, sent to Mrs. M. G. Seelig, temporary chairman of the campaign here, gave some of the difficulties met by Kansas City women and outlined some of their accomplishments.

Methods of Campaign.  
"Our milk was bad," she wrote. "We women who undertook to make it good first educated ourselves in the subject. We read every authority on which we could lay hands. We visited dairies with trained guides who pointed out to us defects. (We asked some of our city officials to do this, but they refused and even tried to block us.)"

"After quiet effort to get dairies to want to co-operate, we took our case to the public. We held a big mass meeting and displayed pictures of actual conditions. We placed the blame for the loathsome conditions upon city officials, and announced that we would ask their dismissal. The result was a new president of the Health Board, a new Health Director and a new head of the inspection department."

"A year of close co-operation with city officials followed. Some of the women acted as milk inspectors, acting under the orders of the City Milk commissioner, and without pay."

Pasteurizing Improved.  
"There was a complete transformation in that year in the dairies selling raw milk and in the pasteurizing plants. But because the city refused to appropriate funds for paid inspectors to watch dairies producing for the distributors, we never were able to improve the milk at its source."

"So we raised a fund of \$10,000, opened our own milk laboratory, hired a bacteriologist and went after the class of milk which constitutes about 60 per cent of our supply. The result was that over 400 producers built the simple equipment necessary to come from 'C' grade milk to 'A' and 'B' grades in about five months. We now are working on the harder task of educating the farmers in measures of cleanliness necessary to keep down bacteria count."

"We also are working on an amendment to our milk ordinance and we hope we soon shall have the amazing spectacle in Kansas City of the three factors in our milk supply—producer, city Health Department and consumer—going to the City Council together to ask for passage of the amendment. Our charity and welfare organizations all are getting ready to stand back of us in case of difficulty with the Council."

Advice to Workers.  
"My chief suggestion to St. Louis in entering this work would be: Don't undertake milk reform unless you are ready to work, unless you are ready to stand criticism of the interests and unless you are ready to make your work permanent."

"We have learned that as soon as the public forgets the milk industry, the milk interests forget the health and safety of the public."

Ages of cultivation have brought it to its present size and flavor.

Refreshing, stimulating and rich in vitamins, the orange is a distinct aid to health.

And, as served at CHILDS, it is also a delightful addition to the pleasures of the table.

Sweet, juicy oranges, whole or sliced, also delicious orange juice.

### LEAGUE DEPARTMENT IN ITALIAN FOREIGN OFFICE

Diplomatic Agents Abroad Asked  
to Report All Manifestations  
Regarding Covenant.

By the Associated Press.

LONDON, Nov. 12.—The fate of the League of Nations depends upon the moral co-operation of those peoples who, inspired by a true sense of justice, are conscious of the necessity for solidarity in international relations. Count Sforza, Italian Minister of Foreign Affairs, has written in a circular letter to Italian diplomatic agents abroad.

In his instructions to Italian diplomatic agents, Count Sforza expressed his ideas on the league, speaking of the realization of its imperfections by the States which contributed to its formation, and of the necessity for the admission of States not yet members in order that the league's authority can be assured and its structure perfected.

As a result of bitter criticism and loud praise of the league, there has been considerable skepticism of the new institution, wrote Count Sforza, therefore making the diffusion of exact knowledge of what the League of Nations really is the more valuable for restraining diffident and skeptical censors as well as superficial and irresponsible eulogists. He continued:

"It is necessary to instill the firm conviction that the new institution, which has been invoked for centuries by the Italian philosophical and legal doctrine, represents a higher degree of the evolution of law based on a higher unity than that of the state. The creation of a League of Nations aims at securing the integrity of its members, and maintaining international peace. It does not, therefore, exclude the hypothesis of war; it excludes it as the supreme right of the strongest, as the supreme appeal to violence, as an event abandoned to the caprices and vicissitudes of fortune; it admits it, on the contrary, as an affirmation of the moral power of right for re-integrating the community of states broken by the disturbances of international peace, and thus its function comes to correspond to the penal function of each state within its own borders."

Italian diplomatic agents abroad are informed that it is the duty of Italy to promote knowledge of the league. They are requested to report all manifestations regarding the league to the special department for the League of Nations in the Italian Foreign Office.

### TWO WHOLESALE GROCERY FIRMS ANNOUNCE MERGER

Combined Amos-James and Haas-Lieber Concerns to Have \$1,000,000 Common and \$800,000 Preferred Stock.

The merger of the Amos-James Grocer Co., 616 North Third street, and the Haas-Lieber Grocery Co., 806 Clark avenue, into one corporation with \$1,000,000 common and \$800,000 preferred stock, has been announced. The Haas-Lieber Co. was incorporated in 1897 and the Amos-James Co. in 1907.

The stores of the two companies will be retained and branch houses will be operated at Belleville, Effingham and Fairfield, Ill.; Evansville and Terre Haute, Ind., and Mexico, Mo.

A statement given out by the executives of the merged companies says:

"The wholesale grocers have suffered heavy losses recently on sugar and many other items that would tend to place the jobbing business in an unfavorable position from a profit-making standpoint. On the other hand, there are many redeeming features; for instance, the speculative element entered into and forced upon the wholesale grocers during the war period has been eliminated entirely. Business is now back in the original channels of distribution, stocks are becoming lighter every day and the jobbers are able to buy more goods, thus affording quick turnover on newly bought merchandise.

"The country is in a prosperous shape, and all this leads to the belief that our business will be in a prosperous shape in 1921. We also believe the status of the retailer will be much improved because his position will be stronger than it has been in the last two years, as he will own his merchandise possibly cheaper than the chain stores, as the jobbers are quick to meet market conditions and are at the present time supplying the retail trade at less profit than for many years, and this policy will be continued in the future."

### MAJ. CRAIGIE TRANSFERRED FROM W. U. TO WASHINGTON, D. C.

Lack of Interest in Infantry Course Causes Change—Artillery Instructor to Remain.

Maj. Wallace M. Craigie, who has been in charge of the military work at Washington University since the installation of an S. A. T. C. unit there in October, 1918, has been transferred to the army recruiting office at Washington, D. C., because of the lack of enthusiasm among the men students for the infantry course. Maj. F. P. Hardaway, who has had command of the coast artillery unit at the university, will take charge of both branches.

The artillery unit has a requirement of at least 50 members, but there are 79 members, because the mathematics involved is of particular value to engineering students who form the ranks. The infantry unit, required to have 100 students, has had 39.

Maj. Craigie, who formed a wide acquaintance in St. Louis, will be near his mother, who has been ill, in Washington, D. C.

## PEACE DECLARED IN MAJOR LEAGUE BASEBALL WAR

Representatives of Sixteen Clubs at Chicago Meeting Agree to Adjust Differences.

By the Associated Press.  
CHICAGO, Nov. 12.—Peace was declared in the major league baseball war this afternoon. After conferring for more than three hours, representatives of the 16 major league clubs, agreed this afternoon to adjust their differences and peace was formally declared.

Announcement that the shortest baseball war in history had ended was made by William Veeck, president of the Chicago National League club. "We have buried the hatchet and will work together for the good of baseball," said Veeck. "The club owners unanimously agreed on Judge Landis as chairman of the civilian tribunal, and we will see him this afternoon."

The meeting was agreed upon when the warring factions met in Kansas City to present their sides of the controversy before the minor leagues. It was announced that at this session here today John A. Heydler and E. B. Johnson, presidents of the National and American leagues, respectively, lawyers, stenographers and all others are barred, and that only the men financially interested in the two leagues are to be present. The meeting is to be informal, and no record will be made.

The minors will not come into the joint session until the major league owners have reached out their diffident hands. The minors are maintaining their attitude of strict neutrality.

## WAITRESS SEVERELY BEATEN BY FOUR WOMEN ON STREET CAR

Assaultants, Who Followed Her From Restaurant Being Picked, Escape After Attack.

Miss Alma Dettra, 18 years old, of 2758 Olive street, a waitress at the Gem Restaurant, 710 Pine street, which is being picketed by striking waitresses, was seriously injured at 3 o'clock yesterday afternoon when she was beaten by four young women passengers on a westbound Olive car, at Leonard avenue, who had followed her from near her place of employment.

Miss Dettra saw the four women board the car with her, but paid no attention to them. One of them pushed the button to stop the car as it approached Leonard avenue, and then the four pummeled her, pulled her hair and tore her clothing. The four were let off the car and escaped through an alley before the police arrived.

## BOND BROKER NAMED RECEIVER OF THE KANSAS CITY JOURNAL

Special to the Post-Dispatch.  
KANSAS CITY, Mo., Nov. 12.—C. E. Jones, a bond broker, was named receiver of the Kansas City Journal in an order issued today by Judge Van Valkenburgh, in chambers. The order placing the newspaper in the hands of a receiver was issued on application of E. B. Laforque, a citizen of France, and the Citizen's National Bank of Fort Scott, Kan. The application states Laforque and the bank each is holding unpaid notes for \$6000 signed by Hal Gaylord, manager of the newspaper, one issued in July, the other in September of this year. Frank B. Seb. is attorney for the Journal, acquiesced in the action. The receivership is permanent.

Jones is instructed by the Court to operate the newspaper as it has been operated.

The Journal, it is stated, borrowed the money from the Fort Scott bank, one of the notes being sold later to Laforque. The action affects the Weekly Journal as well as the daily. The application gives the Journal indebtedness as \$450,000, and states the company owns property and equipment in excess of that amount, but has not money to meet current expenses, payment of which is required in cash.

The Journal was founded in 1854.

## GARRETT DENIES INTOXICATION

By the Associated Press.  
WASHINGTON, Nov. 12.—Representative Garrett of Tennessee, who was arrested Tuesday night after his automobile had struck a young woman, denied in a formal statement today that he was intoxicated as charged by the police. At the same time he made public letters from Representatives Wingo of Arkansas and Flood of Virginia, to the District of Columbia authorities in which they stated that they had seen Garrett a short time before the accident and that he not only was not intoxicated, but that there was no evidence that he had been drinking.

Garrett said a misty rain and wet streets were responsible for the accident, which so unnerved him that he found he was unable to drive his car to the hospital with the young woman and her companion after the accident occurred.

EDMON AWARDED NAVY MEDAL

By the Associated Press.

ORANGE, N. J., Nov. 12.—Thomas A. Edmon has been awarded a distinguished service medal by Secretary Daniels. It was announced here today by the inventor's secretary. The citation accompanying the decoration, which was sent through the mails, read:

"For distinguished service in a position of responsibility as president of the Naval Consulting Board."

## "WELL, OLD MAN, HOW ARE YOU?"

If Your Blood Is Rich and Red You Say, "Fine"

ENTHUSIASM IS RED-BLOODED

Try Pepto-Mangan If You Feel Weak and Look Pale

Sometimes you are almost down and out. You know you are not really sick, but you have a worn-out feeling. You eat little. You drag along. In the morning you look at your face in the mirror. You feel years older when you see how pale and haggard you are.

It is your blood. It needs red corpuscles. Instead of poking along half sick, why don't you try taking Pepto-Mangan, the blood tonic? It has just the ingredients weak blood needs. With red blood your energy and enthusiasm return. You eat better. You tackle work and achieve.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. It is sold in both liquid and tablet form. The medicinal properties are identical.

Sold at any drug store. But be sure to get the genuine Pepto-Mangan—"Gude's." Ask for it by the name and be sure the full name, "Gude's Pepto-Mangan," is on the package.

**Vote to Accept C. A.**  
by the Associated Press.  
DANVILLE, Va., Nov. 12.—Wage reductions of 25 per cent, effective Jan. 29, were announced today by the Dan River and Riverside Cotton Corporation, one of the largest employers of its kind in the South. The corporation further announced that no groups of its employees as represented in the plant government system had voted unanimously to accept the reduction.

The reduction, the corporation officials explained, affects only the bonus to pay, the economy dividend or bonus in force under the plant government system not being affected.

# LOWER PRICES THE WATCHWORD OF THE DAY

—and St. Louis' Foremost Men's Store Is Aggressively Furthering This Campaign for Lower Prices

Less than a month ago the price of a \$55 Suit or Overcoat was \$55. Today these, and even \$60 and \$65 garments, are priced \$45. And a similar schedule of reductions is in effect on our entire stock of Fall and Winter Clothes. The reason? Simply the effort we are successfully making to bring about a

price readjustment—a readjustment by which our patrons are the gainers. Recent large purchases on the new price basis, together with extreme reductions which we willingly assume on our own stocks, account for this extraordinary event, which brings—

### LETTERS FROM THE PEOPLE.

**School Training for Business.**  
 With the editor of the Post-Dispatch:  
 In the annual statement of "Trade and Finance" issued by the St. Louis Merchants' Exchange I note the expenditure of \$4,719,684 during the years of 1918 and 1919 on our public schools.

When we read of such an amount of money having been spent here in St. Louis for reconstruction and advancement in public school education, we as citizens, assume with pride that due diligence has been exercised in the selection of text matter being used in the various departments.

While making investigation relative to mathematics taught in our public schools I am chagrined to find that the textbooks covering the subject of mathematics have received no consideration during the expenditure of this vast sum of money.

It is stated to me by one of the leading educators of this city that the same textbooks are in use today which were used 25 years ago in the teaching of algebra and geometry in our public schools, and that there has been no change made, even to take advantage of later editions, and that the subject of mathematics as a study in high school is entirely elective with the pupil.

When we realize that mathematics is the foundation of every class of successful business enterprise, it seems ridiculous that such startling facts as these should be overlooked, and that the taxpayer should not be properly informed of such a gross injustice.

It seems pitiful to me as an accountant and business man to realize that our public schools are neglecting the most necessary study in preparation for a successful business career.

Unless the mental capacity is cultivated along the lines of figure analysis we cannot hope to produce men with mental caliber to successfully cope with the today methods which are essential to men holding managerial positions.

I approve the severity of the Missouri State C. P. A. Board and regret that the elementary training in our public schools being given to our young men is so insufficient, but lacking in the today feasible material that may be had and maintained at a nominal expense, and I ask that investigation be made substantiating the facts to the end that mathematics may be taught, not as an elective subject but as a compulsory subject, through all grades in our high schools.

Give the young man mathematics, good English, commonly termed grammar, and a good character as a foundation with which to fortify himself, and we need worry but little about the success of his business career. The parent is deeply concerned with respect to the boy's education, that good character he may develop and believe in the sufficiency of our public schools, they leave the educational training to the judgment of others.

Many expressions of regret from men grown, relative to insufficient knowledge of mathematics, which I hear daily, would arouse a storm of protest against the inadequacy of the mathematical training in our St. Louis schools.

**Coffee Prices.**

To the Editor of the Post-Dispatch:  
 I would thank you for the coffee dealers to advise the public why they still continue to charge high prices for coffee. I note particularly that this is "Coffee Week," and some attention should be given to the cost of green coffee in comparison with the price of roasted coffee. Coffee report dated Nov. 1, shows that green coffee is quoted: Spot Rio 14.75; Santos 14.10; and December shipment is quoted as low as 14.10. Who is making the difference and why should this variance exist?

CURIOUS.

**"Have There Been Any Prayers?"**

To the Editor of the Post-Dispatch:  
 "Replying to 'Old Fashioned' in the Post-Dispatch People's Column, the writer greets those prayers for President Harding, and with satisfaction remembers prayers in them. That churches have neglected public prayers for Wilson does not prove that he is not prayed for daily by thousands. There are many who deem it a duty to pray daily for our man in high public office, who will say as fervently for Harding as they would for Wilson."

Who should all pray that Harding's administration may be instrumental in spreading God's peace on earth, that all men hear good will toward each other, that our Government give justice to all, that we may have again experience "Black Friday," "John Smith" epoch, secret treaties (which are the worst of entangling alliances), or any other national calamity? A BELIEVER.

**ON EFFICACY OF PRAYER.**

### AN AMERICAN DELUSION.

President-elect Harding now assures us that we did not fight "to make the world safe for democracy," nor did we fight for "humanity's sake." We fought for America alone, American rights, the safety of American citizens and for American interests. All that "beautiful sentiment," he declares, "has beclouded our purposes in the world war."

Yet we recall the day when the American people, finding that German imperialism trampled not only upon American rights and slaughtered American citizens, but trampled upon the rights and slaughtered the citizens of all nations that stood in the way of its will to conquer and rule the world, entered the war with the high purpose of not only vindicating our own rights, but of putting an end forever to that kind of imperialism and to the ruthless methods of imperialistic greed and ambition. We remember when the high call of the President to the American people to defend not only American rights and American lives, but the rights and lives of all peoples against autocracy, stirred the heart of America and of all mankind, raised the drooping spirit of the allies, renewed their courage and strength and undermined the foundations of imperialism. We recall when the mountains and valleys and plains of America rang with the call and millions of men and women rallied to the appeal; millions of armed men sprang to the defense of democracy and crushed imperialism with enormous sacrifice of precious blood and vast resources. The expectant world throbbed with the birth of a new and better order, when democracy, justice and liberty would be established for all men.

All this we learn now from Mr. Harding was an illusion—the airy fabric of a dream which has passed. Our minds were beclouded with beautiful sentiment for democracy, humanity, liberty. We were laboring under the delusion of lofty aspirations and nobly conceived designs for the advance of civilization and the benefit of all men. We were deluded by alluring but impractical sentiment that the golden rule had a real meaning and that there was something nobler in mankind than mere selfishness.

Our minds are no longer beclouded. We see straight now; we see the real motive that moved us under the camouflage of war and have come to a realization that we fought for American rights and American interests alone. Our obligations to our associates in war and to mankind ended with the vindication of American rights and American strength. We will gather the fruits of victory and use our strength for ourselves alone. Let democracy die, cast humanity into the discard, let civilization stagger into the ditch. We will look to ourselves in a world of misery and chaos. A filip for honor and moral obligation and the common interest of mankind.

Undoubtedly, the American people have voted for a change.

### MINIMIZING BARGE LINE DELAYS.

With all their other up-to-date equipment, the new craft of the barge line will have an outfit of wireless apparatus. The purpose to provide all facilities that may contribute to the efficiency and success of the service is commendable and doubtless the new boats will not be long in commission before the practical value of the installation is made plain. In case progress is delayed by the many obstructions to navigation or an accident happens to machinery or crew, the indicated measures of relief may be promptly supplied.

The wireless will be an insurance against delay. It ought to help dissipate the mistaken notion that shipments by water must necessarily take longer than shipments by rail.

Following the example of the automobile dealers, the clothiers might offer rebates on silk shirts purchased before the fall.

### THE SOURCE OF PURE MILK.

Among the many important, if disconcerting, disclosures resulting from the energetic inquiry of St. Louis women into the city's milk supply is a fact regarding production. The Southern Illinois farmers, according to Mrs. Seelig of the Citizens' Milk Committee, in an interview in the Post-Dispatch, are not dairy farmers. With them milk is a side line, and it receives only the casual, when-convenient attention that is the side line's usual portion.

Yet 80 per cent of the milk consumed in St. Louis comes from Southern Illinois. What this means in money we do not know. It is well known, however, that during the two months of September and October, when the local distributors got their milk elsewhere, the Southern Illinois farmers estimated their loss at \$1,000,000. If the business maintains that average throughout the year, it is a \$6,000,000 business. And even in this age of industrial magnitude a business of \$6,000,000 a year is a pretty big business. It is big enough, one would think, to be taken from the side line and given the specialized management of the dairy farm.

It is true, of course, that St. Louis cannot tell the Southern Illinois farmers how to run their business. But St. Louis is vitally concerned as to its milk supply. And as a milk market St. Louis is decidedly worth while. Moreover, all our local regulations in behalf of pure milk, such as inspection, methods of treatment and ordinance standards, will be at a disadvantage where the source of supply is below requirements, as is now said to be the case in Southern Illinois.

The purification of milk ought to begin at the

### MR. SHUPP'S GLORIOUS VICTORY.

Assuming the adoption of referendum proposition No. 12, Sept. Shupp of the Missouri Anti-Saloon League says it is the "greatest victory ever won by the temperance forces of Missouri." But is it? The attitude of the average voter was that, with Federal prohibition in force, it made little difference whether No. 12 was adopted or not. With the act made effective, some of the fines will go to Missouri which now go to the Federal authorities, but, on the other hand, Missouri will have to board some of those who receive prison sentences.

Probably the greatest and most characteristic Shupp victory came when the last Legislature, after the people had rejected prohibition by a decisive majority a few weeks before, passed this same act which so many voted for in last week's referendum on the theory that Federal prohibition gave them no choice. The next Legislature would have as much justification in repealing the act, despite the latest popular vote, but if it should, what would Mr. Shupp say?

### AN INCOMPETENT COMMITTEE.

The action of the House committee, appointed to investigate the work of the United States Shipping Board and Emergency Fleet Corporation is, to say the least, extraordinary. The committee has permitted the publicity of sweeping charges reflecting on the capacity and honesty of the men at the head of the enterprise, without having given the accused a hearing.

The procedure is a shock to public decency. The protest from an Illinois organization to Speaker Gillett against this violation of the elemental rules of fair play doubtless expresses the general sentiment of revulsion at the committee's verdict of guilty on ex parte testimony.

It appears from the newspaper reports that the investigation has not been done by the committee, but by the committee's secretary and statistician. But in accepting the findings of those subordinates, and sanctioning them to the point of making them public, the responsibility for the publicity must be charged to the committee. It is no trivial responsibility, despite the privileged status of the committee personnel as members of Congress.

When alleged irregularities inspire such terms as "waste," "favoritism," "incompetence" and "neglect," and the loss to the Government is estimated vaguely in "millions," the charge embodied is corruption. To bring such a charge publicly on anything other than the fullest, most searching inquiry against men who patriotically dismissed their big affairs to serve the country in time of war is an affront to the public which Congressmen even may not be guilty of without having to reckon with grave public censure. It is the worse in view of the forced praise bestowed upon the services of these men.

At present it is the congressional investigating committee that is on trial, not the men whom that committee has been willing to besmirch.

Secretary Houston of the Treasury says the country must face a tax bill of \$4,000,000,000 a year for the next three years. But what will it be if the G. O. P. undertakes to revise it downward?

### VOLSTEAD AGENT YOUNG'S CASE.

State's Attorney Strubler will lay before the grand jury, meeting in Edwardsville Monday, the facts in the case of Enforcement Officer S. Glenn Young, who shot Luke Vadovic at Madison. These facts are well worth the attention of a grand jury.

The one fact that no less than eight bullets were found in the body of the dead man would alone warrant an inquiry. All the shots inflicted wounds of a disabling nature and any one of five or six of them might normally prove fatal. This would indicate the use of much more than that "necessary" force which is all an officer of the law is justified in resorting to. It is asserted, in addition, that Young forced his way into the Vadovic dwelling without a search warrant.

What sort of a disposition on the part of an officer of the law is indicated by this unbecomingly fusillade, continued after the first bullet had crashed to its living mark? There is a public impression that some Volstead agents are inclined to high-handed work and that they shoot with too little provocation. Certainly a homicide under such circumstances as attended the one at Madison should not be passed over without some legal proceedings other than an ex parte showing before a Coroner.

The authority to which these agents are responsible is a long way distant. The most available means of impressing them with a sense of their accountability and the danger of presuming on their official jobs is the one the State's Attorney is employing.

Gen. Friedrich von Bernhardi, author of that best seller of 1914, "Germany and the Next War," has now written "War in the Future." After prophesying the military restoration of Germany, he adds: "As for me, I shall hardly live to see this great moment. My life course has been run helping to build up the nation which now lies in ruins." The General lets himself down easily. Some would say that his life was spent in ruining a nation which industrial genius had built up.

#### HENRY CABOT LODGE.

I AM monarch of all I survey—  
 My right there is none to dispute;  
 The league is put safely away,  
 And Wilson is done for to boot.  
 The red anarchy war may resume his full sway,  
 And anyone wishing may shoot.

Away with those roseate dreams  
 Of peace and a better estate;  
 The eagle is best when it screams,  
 And the motive that makes us hate.  
 Our party, moreover, reposed on its beams,  
 And the Wilson ideals can wait.

The New Republic agrees with Br'er Bryan that Mr. Wilson should resign the presidency at once and give the Republicans a free hand. It says Mr. Wilson intended doing this very thing in the event Judge Hughes succeeded him, and had even gone over the matter with his Attorney-General. (If he did, and the Springfield Republican is right, he found that Mr. Harding would within 10 days have called another election for President and Vice President.) It thinks we have all become convinced of the uselessness of a house divided against itself. There is something to that. We made a terrible mistake when we did not give Mr. Wilson a Democratic Senate in 1915. We owe all our troubles, as well as many of the post-war troubles of the world, to that error of judgment. It enabled the Republicans to gain a slender majority in the Senate by keeping Senator Newberry out on bail, and Mr. Wilson's work was done. We may be sure that if Mr. Wilson thinks this the best thing to do, he will do it. He is never bound by convention. No one could outdo him in making some sacrifice to a re-ordered world. He has hated war as no man in our public life has hated war. If his determination to rid the world of it has at times found him unwilling to compromise upon makeshift terms, he is the more to be honored for having remained inflexible against war. We have from Mr. Wilson a world faced order. It is not pertinent to say that war has not ceased, or to point out that countries such as England and France are still grabbing territory. It takes time for a new order to become established. We cannot, for instance, comfort the lover of liquor because the law is being violated. They will all toe the mark. It is still a little dim, history will give Mr. Wilson credit for what he has done. It looks to us like the greatest service ever rendered to humankind, and we are missing our guess if history doesn't say so.

One of our readers wants to know what Lillian Russell is to have when the new administration takes hold at Washington. We assume that it will be something good. Lillian on the inevitable consequences of forming an entangling alliance with the bloodthirsty Powers of Europe was about all that kept us in a good humor during the campaign, and she deserves her reward.

### THEY OUGHT TO BE COUNTED IN.

### The MIRROR OF PUBLIC OPINION

This column is designed to reproduce without bias the latest comment by the leading publicists, newspapers and periodicals on the questions of the day.

#### THE TEST OF CIVILIZATION.

THE real test of civilization is its capacity to survive. Such a practical test is now being applied to our Western civilization—the severest ordeal it has faced yet. Will our society, based on individual freedom and political equality, be able to satisfy the new demands of the mass of its membership—demands which it has itself created by putting unlimited wealth, and power, and wisdom, within the reach of every one's desire? Can civilization fulfill this desire by gradually making itself accessible to all who want access? At this juncture, then, it seems to me that the real criterion of our level of civilization is not what refinement it has given to its refined but what possibilities of refinement it gives to the unrefined. What matters now is the achievement of the past, the promise of the future. It is in its promise that the greatness of our democratic civilization lies: for in the attainment of an ideal of harmonious cultural perfection, it has thus far remained behind the achievement of Athens or of Rome. If it is at all viable, then, we are only at its dawn; then all we have done hitherto is to select the raw materials—the immense wealth of means of production and communication of which a higher kind of social perfection can be built. Not the most refined, but the most democratic nation is the fittest to survive.

#### THE BOY SCOUTS.

THE Boy Scouts have been organized long enough to afford a thorough test of the effect of their system on the boys who join the organization. It has not proved a flash in the pan, as do so many social and religious organizations which start with high ideals. Every one who acknowledges that the Scout oath and the Scout law are well calculated to build up fine men and good citizens if they are followed, but in the 10 years of the organization it has been proved that the good results work out in practice. There are now 19,999 Boy Scouts in this city, and we doubt if a single father can be found to say he is sorry his boy joined the order. The direction of the organization are eager to train the boys who wish to come in, but first of all they must have Scoutmasters and money to carry on the work. The need for the work is vital. There are 399,999 boys in the city between 15 and 18. Out of these are in school, some 152,999 are at work and more than 49,999 are unaccounted for; drifters or loafers, ready and easy prey for the street gangs, which become in so many cases merely a way station on the road to prison. That 49,999 boys are so much social and moral waste would be trained in character and fitted for usefulness. No method of salvage has yet been found, but the extension of the Boy Scout movement is the most promising agency in sight, because its drills and hikes and troop loyalty appeal to the boyish instinct for adventure and heroism.

#### STRONGEST FACTOR FOR PEACE.

A FACT which portends the present curious international position of the United States is that an American citizen, Mr. Elihu Root, was one of the chief instruments for drawing up the International Court of the League of Nations—a document to which the American Nation is not a party. This fact shows also that Europe does not take seriously our abstention. The world knows that the United States will be a member of the new association which is to be formed. Irrespective of all written covenants, however, the close co-operation of the British Empire and the United States is the influence that will check and promote the orderly development of mankind, and any elements which seek to disturb this co-operation are the most dangerous enemies of the world war.

# HARDING WOULD GUARD AMERICANS WHEREVER THEY GO

Continued From Page 25.

to our own country, because without American participation it might have been a later and different date, if, indeed, there had been an armistice day at all. We do not claim to have won the war, but we helped mightily, and recorded undying glory to American arms and gave the world a new understanding of the American spirit and a new measure of American resources.

"Whatever the world may have thought of us before, however incorrectly we may have been appraised, the world has come to know that selfishness is not a trait of our nature, that commercialism does not engross us, that neutrality was conceived in fairness—not in fear—and that when our national rights are threatened and our nationals are sacrificed, America is resolved to defend, and ever will. More we gave to humanity an example of unselfishness which it only half appraised before misunderstandings led to confusion.

## Our Part in War.

"We helped to win the war, unaided and unmortgaged. We fought with the allied Powers, but we were only an associated Power and were never committed, if fully aware of them, to the compacts of the alliance.

"History will record it correctly, no matter how much beautiful sentiment has beclouded our purposes in the World War. We did not fight to make the world safe for democracy, though we were its best exemplars. Nor did we fight for humanity's sake, no matter how such a cause impelled. Democracy was threatened long before American indignation called for the republic's defense. But we fought for the one supreme cause which inspires men to offer all for country and the flag, and we fought as becomes a free America, and dropped the sword and stifled greed, when the victory for defense was won.

"We proved anew that here is free and ample America, which does not ask, but freely gives. We were American in name before the world war made us American in fact, not a collection of peoples, but one people with one purpose, one confidence, one pride, one aspiration and one flag.

"We learned a lesson, too, of transcending importation. Righteousness and unflinching justice are not in themselves a guaranty of national security. We must ever be strong in peace, foremost in industry, eminent in agriculture, ample in transportation. Better transportation on land and an adequate merchant marine would have speeded our participation and shortened the conflict. I believe an America eminent on the high seas, respected in every avenue of trade, will be safer at home and greater in influence throughout the world.

## Independent America.

"I like to think of an America whose citizens are ever seeking the greater development and enlarged resources and widened influence of the republic, and I like to think of a government which protects its citizens wherever they go on a lawful mission, anywhere under the shining sun.

"All the way from my home in Ohio to the furthest port on the Gulf I have seen among the people who came to give us kindly greetings scores of stalwart, virile, young Americans who served their country so gallantly and effectively at home and overseas. One must have cause for renewed pride in the character of these men, in their readiness and capacity to serve, in the calm certitude of their manhood, in their new baptism of Americanism. These soldiers of the republic, like their fathers, believe in an America of civil and human and religious liberty; they believe in an America of American ideals; they believe in America first, for it is in America that their hopes and inspirations center.

"We are only in the morn of national life. Who dares to prophesy, in quaffing the cup of optimism, what the future has in store? One needs only to see this magic valley, where the possibilities are not yet touched, to see how prophesy falls short. Texas is ample for an empire of 50,000,000. Ships of modern commerce ought to enliven Laguna Madre Lake where primitive craft marked activities of many years ago. Texas alone is incalculable. Agriculture, transportation, factories, commerce all are growing in the glen of the Lone Star and adding to the strength of our common country. We have only to go on independent and free, untrammelled and unmortgaged, to write the supreme fulfillment.

"We choose no aloofness, we shrink no obligation, we forsake no friends. But we built in nationality, and we do not mean to surrender it."

## SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat, Which Clogs the Kidneys, Then the Back Hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## OFFICER URGES MORE RESPECT FOR THE FLAG

Col. H. B. Philpot Declares U. S. Citizens Discourage Foreigners in Americanism.

Col. S. B. Philpot of the regular army, delivering an address on "Americanism" at the armistice luncheon of the Chamber of Commerce at Planters Hotel yesterday, declared that if American would set a better example in reverence for their country's flag and what it stands for, immigrants would learn to respect the land of their adoption and Bolshevism would not have the field it has in the United States.

Col. Philpot, who was war-time commander of the Fourth Infantry and that of "Billy Sunday of the Army" in the A. E. F., and he demonstrated his right to both in the course of his address. He is a rapid, forceful speaker, employing considerable motion in his arms and body as he speaks.

In accordance with the custom of greeting speakers, the audience arose as the Colonel was introduced. He waved them down.

"As you were!" he shouted.

"The newspapers came to me at the beginning of this luncheon to find out what I would say," he began. "I told them I did not know, and I say that to you now. (And himself does not know what I may say I may say things that you people won't like, that you American Legion men won't like, or that the city fathers won't like, but I am going to say them.)"

Mayor Kiel was seated beside the speaker and at a long table before him were the commanders of numerous American Legion posts.

Education of Masses Urged.

"The great necessity in Americanism is for better education of the masses, that they may understand Americanism. The other day I addressed a great crowd of foreign workmen at an Eastern factory and I could see that their eyes were 'lightless' so far as meaning of their new flag was concerned and their heads 'a. w. o. l. above their ears,' as we say in the army, so far as Americanism was concerned. I got a message over to them and many of them shook my hand afterwards and thanked me."

"The condition of our foreign population makes me almost ready to call our country the great garbage can rather than the great melting pot." The foreigners come over here from their native lands, where they had respected their flag and national traditions, and they want to see and respect their new flag. A parade comes, they go to the curb and better to see, and perhaps the crowd of Americans applauds the blare of the bands, but none removes his hat for the flag. Already the foreigners begin to lose respect for this country.

"Here we are teaching disrespect for the flag we want them to respect; expect them to stand for it while you and I scramble for the car line. Recently I addressed a crowd of 15,000 persons in Springfield, Mo., and when I had finished many of them started a rush to leave, although the national anthem was being played. I called them back and 'bawled' the everlasting daylight out of them," as we say in the army.

**Will Never Forget Nov. 11, 1918.**  
"I and these men around," he went on, indicating the American Legion men, "will never forget this day two years ago. We should always observe this day. Your two great political parties were dominated by pacifists at Chicago and San Francisco. With the pacifists in this country now I would like to see April 6 celebrated as a holiday because that was the day we went after Germany, in 1917. But let us celebrate the day we got the Germans licked, even if some folks don't think we went far enough in the job."

Col. Philpot expressed contempt for the "thousands of draft evaders in the United States during the war and urged that they be singled out and remembered. He said he had soldiered in six different wars. "When America was not at war I butted into some country that had that luxury," was his explanation.

"It is your business and my business to let the mothers who mourn for sons who died in the war know that their boys did not die in vain," the Colonel continued in his plea for Americanism.

Speaks to Three Classes.  
"I always speak to three classes of people. I speak to the old men because the world has passed them by. I speak to the old women because they appreciate it and know I am not flirting. Lastly I speak to

the young men just out of jail—if confidence in them they'll throw up such youths know that someone has

## A New Kind of Detective

Mr. T. Carrington, private detective (or, "inquiry agent," as he preferred to call himself), is described by the author, J. Storer Clouston, as: "A young man, apparently a little over 30, above middle height, with a round, ingenious, very agreeable face, smooth fair hair, a little, neatly trimmed moustache, and a monocle that lent just the necessary touch of distinction to what might have otherwise been a too-good-humored physiognomy." The stories were, for the most part, told by Mr. Carrington himself over a smoking-room fire.

**MR. T. CARRINGTON** is no clap-trap sensational detective. Neither is he one who sits down and "deducts" crimes. He gets right to the bottom of the facts by hard work and rare intelligence and some of the big cases he has worked on, quietly and without show, he is now telling about in a series of intensely interesting short stories.

J. Storer Clouston, the author of this series of short stories, has created in T. Carrington a character new to detective fiction, but makes him a real, living person, and the records of his exploits make splendid reading. If you like detective stories, especially detective stories with a queer and unexpected twist, you will enjoy every line of these.

The T. Carrington Stories Will Be Printed  
**EVERY SATURDAY**  
IN THE

For the most part each story will be complete in one issue.

CITIZENSHIP REFUSED  
TO HOTEL PROPRIETOR

Judge Dyer Dismisses Application  
"With Prejudice" on Ground  
Hotel Was Immoral.

Judge Dyer in the Federal Court yesterday dismissed "with prejudice" the application of Boruch Kornstein of 4622 Newberry Terrace, for citizenship. Kornstein, who is better known as Barney Corn, is proprietor of the Victoria Hotel at 719 North Seventh street.

The dismissal "with prejudice" means that Kornstein is forever barred from citizenship. The judge also issued an order forever excluding from service as naturalization witnesses Morris Newburger, 3645 Easton avenue, a clerk, and William A. Beck, a bartender at the hotel, who appeared as Kornstein's sponsors.

Citizenship was denied to Kornstein by Judge Dyer in 1914 on the ground that he was operating an "immoral" hotel. He was then proprietor of the Victoria. Yesterday Kornstein testified that he remedied the defects in his character, but several policemen testified that the morals of the hotel had not been improved.

Of 131 applicants for citizenship 24 failed to appear. Papers were granted to 93 and denied to 14. Eleven denials were on the ground of ignorance and two because the applicants claimed draft exemption as enemy aliens.

ST. LOUIS - TO - PITTSBURG  
AIR MAIL SERVICE DELAYED

Department Expected to Inaugurate Service Monday—Contractor Not Yet Heard From.

Special to the Post-Dispatch.  
WASHINGTON, Nov. 12.—Establishment of the St. Louis-Indianapolis-Cincinnati-Columbus-Pittsburgh air mail service will be delayed beyond the date originally contemplated, the Postoffice Department announced today. Officials had hoped that Alfred W. Lawson of Milwaukee, who has the contract for the service, would be ready to place his planes in the air next Monday, but no word to that effect has come from Lawson. Until Lawson signifies that he is prepared to go ahead, the department will make no arrangements for the new service. Two weeks' notice is required in order that necessary adjustments in schedules may be made by postal officials. Inauguration of the service next Monday was not mandatory. Lawson has until Jan. 15, 1921, to begin the execution of his contract. It is believed that he plans to put the New York-Pittsburgh-Chicago route, for which he also has the contract, into operation first.

The St. Louis-Pittsburgh route covers about 600 miles. A plane will leave Pittsburgh at 9 a. m. (Eastern time) daily except Sunday and days following holidays, and will reach St. Louis at 4:50 p. m.

The eastbound plane will leave St. Louis daily except Monday and days following holidays at 9 a. m. and arrive at Pittsburgh at 7 p. m. (Eastern time.)

their heads and start anew." In Missouri 29 per cent of the young men could not be accepted for military service in the war for physical reasons, Col. Philpot said. He described this condition but said Delaware was the worst State in this respect, having 41 per cent unfit. The best State had 11 per cent unfit. He made the statement that 90 per cent of the young people in St. Louis never reach high school and that 5 per cent of all Americans "never graduate from anything at all."

"The address closed with an appeal to the American Legion to combat Bolshevism in the United States, saying: "Every citizen should love the country like a mother loves her babe or God help America."

As the officer finished speaking a bugler from Jefferson Barracks sounded taps, the audience standing in silence. Previously, at 1 p. m., the audience had sat in silence to honor the spirit of the dead fighters, following a prayer for them delivered by the Rev. Father Thomas Kennedy, pastor of St. Philip Neri's Catholic Church and chaplain of the 35th Division, A. E. F.

The Red Cross was represented at the luncheon by Mrs. Frank V. Hammar, who sat at the speaker's table. Col. Philpot is making similar addresses all over the country under the direction of the War Department.

## DELYSIA GIVEN WARM WELCOME IN NEW YORK

French Musical Comedy Star Declared to Be Vision of Physical Loveliness.

Special to the Post-Dispatch.  
NEW YORK, Nov. 12.—After long and patient waiting, New York was given its chance to form for itself and at first hand its impressions of the reigning songbird of the French musical comedy stage whose gorgeous feathered headresses for a season or more have been monopolizing the front pages of the London pictorial weeklies. It was Alice Delysia's night at the Central Theater. And there was in store for her the kind of a welcome that Broadway is ever prepared to give to a new European celebrity.

After her meteoric career in Paris and in the English capital it did not matter that the proceedings at the theater also included the first American production of the industriously heralded "Algar" in the glittering Moorish trappings with which Paul Potret has decorated it. Nor that Lupino Lane, London's clever acrobatic comedian, was also making his debut in this country. Mile. Delysia was in the foreground. It was the personal interest in her that filled the playhouse to its last square inch of standing room.

Bewildered by Reception.  
And what was the much heralded Delysia like? A glimpse of waving green plumes from behind the gateway of a Moorish palace first whetted the audience's expectation. Such extravagance of ostrich feather could only be indulged in by her and then came Delysia to taste for the first time the warmth of a Broadway reception that kept her standing in bewilderment in the center of the stage for fully five minutes. She must have perceived it once that New York, like London, was quite willing to accept her on faith.

She is a striking beauty of brunette type. She is tall and lithe and graceful. You miss at once in her hat piquancy which we associate with the Parisian comedienne of the musical stage. She is, for instance, almost the antithesis of Gaby Deslys, whom Broadway welcomed with equal rapture nearly a decade ago.

Secret of Her Success.  
It was a vision of physical loveliness that Delysia found her way to success before her first American audience. She sang one comic song in her unintelligible French accent that Fannie Brice could easily have surpassed in humor. But again there were seductive low songs upon which she placed the stamp in a manner that was entirely her own. One gathers that she will vastly please the great public which musical comedy commands in this country, but that she will somewhat disappoint those who have expected a touch of genius—of a kind, at least—in a celebrity who has been so enthusiastically acclaimed abroad.

"Algar" is, as the program describes it, "a musical extravaganza." It is a production of striking pictorial beauty. It is set to a graceful and melodious musical score by Charles Cuvillier which is generally well sung. Its libretto, which must have undergone marvelous changes from its French original by Michel Carre and Andre Borde, is heavy with humor of the most extreme British kind. It has been peppered with local "gags" for its Broadway career.

Their appeal principally as not very happy or spontaneous afterthoughts by an uninspired dapper. With the song humor which is the backbone of this glittering production, it is fortunate that in Lupino Lane the cast contains an acrobatic comedian who is quite the most talented entertainer that London has sent to New York in many seasons. His amazing knockabout stunts remind you of Fred Stone, but with a difference. In the dance which accompanied his song number, "The Man From Mexico," Lane scored a hit that was the equal of anything which Mile. Delysia achieved. In the parlance of Broadway, he "stopped the show."

The story of "Algar" is the story of the favorite wife of a rich and eccentric Moorish merchant who finds her affinity in a Spanish prisoner at the harem of her master. In design it is fantastic. It is beautifully staged and strikingly costumed in the daring and highly picturesque art of Paul Potret. And it is a production of too great dimensions to be displayed up to all its pictorial possibilities on the small stage of the Central Theater. A cluttered and crowded effect marred it, even at moments when its rich Moorish trappings were most appealing to the eyes.

The company, which is composed of both English and American singers, is of fair quality, but it is in no sense extraordinary. Frances Cameron won a little success of which she may be proud. W. H. Rawlins, as the eccentric Moorish husband, was amusing in a decidedly British fashion, and among some of the others who helped to carry on the story of passion and enchantment were Irving Beebe and Paul Irving. But all were subordinated to Mile. Delysia, whose statuesque presence, accentuated by her gorgeous headgear of ostrich feathers, was after all the chief allurements of the combined spectacle and play.

## TELLS OF EFFORT TO PUT OVER DEAL ON SHIPPING BOARD

Investigator Testifies to Activity of "Ex-Convict" and Alleged Collusion With Department Head.

### FIGHT MADE ON IRREGULARITIES

2400 Charges Were Sifted, He Says; His Force of Assistants Cut From 60 to 24.

By the Associated Press.  
NEW YORK, Nov. 12.—A story of how an "ex-convict," a former employee of the Emergency Fleet Corporation, had attempted to "put over" a deal in the sale of excess lumber owned by the Shipping Board by collusion with a head of the lumber department, was related today by John T. Meehan, deputy chief of the board's bureau of investigation.

The deal, had it been consummated, would have resulted in a loss of more than \$1,000,000 to the Government.

He said that in July, 1919, the board had on hand approximately 139,000,000 feet of excess lumber. Bids for the sale of this lumber were submitted in that month. Among the bidders, he said, was a Chicago wrecking firm which filed a bid with a certified check indicating the bid to be for approximately \$3,300,000.

The department had been on the trail of a former employee of the board, the witness said, by the name of E. S. Kiger, then believed to be connected with an alleged subsidiary company of the bidders. It was disclosed that Kiger was in communication with J. K. Fawcett, then head of the lumber department of the Emergency Fleet Corporation.

Says Bid Was Misleading.  
The department of investigation, he declared, learned that the firm's bid was "misleading" and that the tender of the certified check was "intended to cover up" what the witness said experts afterward declared to be an actual bid for about \$24,000,000.

Kiger, who, the witness stated, was engineering the deal previously had been discharged because of his past record which showed that he was not only out on parole from Detroit authorities, but also under indictment in New York for alleged offenses committed in 1912 under another name.

Kiger, however, the witness said, had during the time of his service with the board "proved" to be a good employee. After his discharge by the board Kiger became associated with the lumber firm which had bid for the material, Meehan said.

Details of steps taken by the Shipping Board to suppress "irregularities" were given.

He said that, after investigations conducted under his personal supervision, six indictments against alleged transgressors of the law had been obtained, while another half dozen were indicated on evidence obtained through investigations which he had not personally directed.

Meehan said that the 12 indictments had been returned after sifting down something like 2400 charges against various persons, each of which, he declared, had been thoroughly run down and either verified or disproved. The investigator remarked that his force of assistants, which had once consisted of 60 men, had been reduced to 24.

Board's Achievements.  
Commander W. B. Clements, executive assistant to Admiral Benson, chairman of the Shipping Board, told the congressional committee yesterday that, "considering everything, it is a remarkable tribute to the board that the United States secured as near 100 per cent value as it did."

The witness referred to the work of the board in building up new trades and told of the business connections established that were proving remarkably successful. He de-

clared conditions in different trades were such that a general operating contract covering everything was, in his opinion, a "dream."

The United States Shipping Board

now employs 13,000 men, with an annual payroll of \$19,000,000, Commander Clements said. The size of the organization is being gradually reduced, however, he added.

# The Slaughter of the Innocents

"Three and a half million children call to the heart and resources of America for these daily supplies, not available in their own countries, that are vital to their survival and to the rebuilding of their physical well-being."

"Our resources will be exhausted in January."

"We must not step aside and permit the spectre of death, in the form of hunger and cold to haunt these helpless ones this winter, yet we cannot continue without help . . ."

"This is a charge on the American heart, and America cannot fail in her solicitude for these little ones."

"Twenty-three million dollars must be raised without delay, and remembering the new heart you put into the Commission for Relief in Belgium in the dark hours of 1916, I come to you again."

(Signed) HERBERT HOOVER

From a letter to The Literary Digest.

In immediate response the following editorial was published in The Literary Digest of Oct. 30th:

**W**HEN JESUS CHRIST CAME upon the earth nearly two thousand years ago, to save all mankind, his mere coming seemed to interfere with the material interests of a few people of that period, notably King Herod, who promptly decided to dispose of this "interloper," and sent forth his soldiers with orders to slay all the children of two years old and under. Thus was consummated the most atrocious crime against innocent childhood ever committed up to that time. It has come down to us through all the ages in song and story, and master painters have pictured it on marvelous canvases.

To-day passing in review, as we look out through the windows of our comfortable homes in this great and happy land, are three and a half millions of helpless children, the innocent victims of the greatest war that has ever afflicted humanity. It matters not, as we gaze in the direction of these children, that our eyes must stretch across three thousand miles of ocean, we still can see them and we still can hear them, if we wish to do so; and we can not help hearing the tragic appeal in their voices and seeing their tiny arms stretched out to us, and their searching eyes looking into our souls as they say, "Help us, or we perish." And if we fail to listen to this great call of three and a half millions of God's helpless children; if we close our eyes and ears to this great demand of duty, we shall be just as guilty of the "slaughter of the innocents" as was Herod, nearly two thousand years ago.

In these lands, swept by death and filled with tragedies too deep for tears, a sum of human suffering is being written greater perhaps than for all ages gone by. The mind grows numb and the heart sick from a constant recital of tales of such tragedy as it is difficult to believe the twentieth century could hold.

And so, when we received a letter from Mr. Hoover telling us that America must not allow death in the form of hunger and cold to come to these 3,500,000 helpless children our soul was stirred and the hot blood surged up in our heart. We felt it was our imperative duty to use all the power God has given us to aid this noble-hearted American in continuing the work of saving human lives to which he has devoted unsparingly, and at great personal sacrifice, his tremendous energy and administrative genius during the past six years, in which time he and his American colleagues

have administered two billions of dollars of relief funds from all parts of the world with a total overhead expense of only three-eighths of one per cent., with no remuneration to the American directors. Now he asks us all to help save the children who are in imminent danger of starvation this coming winter.

There they are, in the midst of wrecked homes, and farms, and factories; in cities crowded with masses of refugees without sustaining food for children, through the destruction of live stock; seeds for planting, raw materials, tools, and machinery gone; great areas with everything burned, or looted, or smashed; vast unemployment for workers; no means of subsistence; a land of economic ruin, of mutilated life, and lingering death; and in the midst of it all—the little children.

In long lines they are waiting at the American food-kitchens. Will the food be there for them? Will they be turned away? There are no happy, healthy faces in those long lines—not one. You have seen rags and barefooted children, but never so many little boys and girls literally drest in tatters. Soon it will be very cold, and for those bare little feet and legs and arms there is nothing at home to put on.

Hollow faces and shrunken bodies are so common that their real condition does not become evident until we inquire more closely, and then we find that most of them are from one to five years back in their growth. Children of eight years old have not reached the normal size of two and a half. They are just learning to stand alone. Others almost as old can not yet stand on their feet. Their arms, and legs, and spines, and chests are twisted and warped. The flesh and skin are shriveled on their bones. It is surprising that life can still exist there. If they can have food they will gradually regain their health and strength, but with most of them it is a question of now or never. Starvation and tuberculosis will not wait.

In Poland alone a million five hundred thousand such children must be cared for. In Latvia and Esthonia the people are living mostly on a diet made from potato-flour, oat-flour, and sawdust. In Czecho-Slovakia, in Hungary, in Austria, and in other countries of central and southeastern Europe, two millions more are in dire need of food; and who stops to ask regarding creed, or race, or nationality when a little child is starving? Children are just children the world over, and the great American heart is big enough to care for them all.

But the appeal now is not for all. The three and a half millions of children in immediate danger of starvation, if this organization fails, who must have food at once, are only a fraction of the total number. The hungry children of those destitute countries have been examined by competent physicians, and only those whose wasted little bodies are reduced to the minimum weight, and whose endurance of hunger has reached the end which merges into actual starvation, are admitted to the American kitchens and given one meal a day. It is hard to turn away thousands of hungry boys and girls—to hear them ask, pleadingly, "Do I weigh too much?" "Am I not thin enough?" "Can't I come any more?" But this restricting of food to the extreme cases is compulsory, because there isn't enough for all.

And these neediest ones can not reach the kitchens through the cold winds and the snow barefooted and in the pitiful rags which form only a partial covering for their bodies. They must have clothes. Each outfit consists of one pair of warm woolen stockings, one pair of boots and a little overcoat. This one meal a day, and these boots, stockings and little coats can be supplied *only if we give them*. If we do not, the slaughter of the innocents by cold and starvation will be appalling.

Among the more than two million men and women who will read this page there is not one—there can not be a single one—whose heart will not respond gladly and eagerly to the challenge of this great need. We are asked, *you* with us, to cooperate with Mr. Hoover in raising twenty-three million dollars to feed and clothe these children and save them from death this winter. It can be done. It shall be done! THE LITERARY DIGEST knows its readers and the deep earnestness, the quick sympathy, the great-hearted generosity they always show when any real human need calls to them. You have never been called upon in vain. We are counting on you now with a great confidence. We know, also, how truly you represent the American spirit, which beats in the hearts of a hundred and three millions more in this big land of plenty, a spirit which leaps ready at every such call, and is never weary in well-doing. We are not a hermit nation, isolated from the world, when suffering and want cry out to us from anywhere under the sun. A great, a beautiful, and heart-sustaining hope supports these stricken people—*America will come to their relief*. For in the far places of the earth, where famine stalks, one name and one alone is synonymous with rescue and hope—and that name is America.

The small individual unit of ten dollars will provide the coat and boots and stockings and one meal a day for one child this winter. We urge our readers—we urge *every one* whose eyes are on these words—to give quickly as many of these units as possible *to buy for themselves that precious and priceless thing, the life of a little child*—as many of them as they can, and every one will be a shining star in an eternal crown. It was the Divine Love of little children, who came to earth as a little child, and who reigns now as the King of Glory, who said, "Inasmuch as ye have done it unto one of the least of these, ye have done it unto me." He does not forget, nor fail to reward.

So deeply do we ourselves feel the urgency of this great need, knowing all the facts, that we should feel a heavy burden of guilt if we did not go beyond anything we have felt possible heretofore in order to save these innocent children from suffering and death. Therefore, THE LITERARY DIGEST will start this fund with the sum of \$25,000 to feed and clothe twenty-five hundred little boys and girls this winter. What an inspiration it will be to all of us—what an inspiration and example to many thousands who may be uncertain how much to give—if in the very first week there shall be a great shower of checks for \$1,000, for \$5,000, for \$10,000, as well as a deluge of smaller accounts, to send the fund rolling on toward the necessary twenty-three millions. Let us all see again what the father's heart is like in this great rich land of America. Let us have again a wondrous revelation of the heart of American motherhood. Let us have a great outpouring of love and helpfulness in the name of Him who said, "Feed my lambs!"

## President-Elect Harding, in a Great-Hearted Response, Sets an Example for all Americans

In the midst of the flood of telegrams, telephone calls, and election returns pouring in upon him from every part of the United States, Mr. Harding turned from it all to write and dispatch the following telegram from his home:

THE LITERARY DIGEST, NEW YORK CITY:—

I have just now read your splendid appeal to the people of America in behalf of three and a half millions of unfortunate children in Central and Southeastern Europe who are the helpless victims of the Great War. Because such a movement for relief reveals the true heart of America, because it bespeaks an American desire to play a great people's part in relieving and restoring God's own children, I want to commend and support your noble undertaking. In seeking God's blessing for ourselves I am sure He will bless us the more abundantly if we share our good fortune in acts of sympathy and human fellowship. I wish you a success which will reveal anew the unselfishness of our great people. I am forwarding you my check for two thousand five hundred dollars by mail today.

Marion, Ohio, November 4, 1920.

# It Looks Like Johnson's Enemies Want to Knock the Ban Out of Banner Season

## Mathes to Start At Fullback for Pikers, Tomorrow

Griesedieck, Unable to Work This Week, Joins Reserves in Tiger Battle.

### ELEVEN DEPARTS TODAY

Over 300 Local Students, Scrubs and Freshmen Players to View Missouri Game.

Twenty-three varsity players, two coaches, a trainer, a manager and business manager comprised the Washington University football squad that left at 3 a. m. today for Columbia, where the annual Washington-Missouri game will be played tomorrow afternoon.

Every player who has played this season was in readiness for the contest, and Coach Rider will be able to send his greatest strength against the Tigers on Rollins Field. Fullback Griesedieck, who was badly injured by a tackle on the side line prepared to answer a call. Griesedieck's side is in shape, but the injury kept him out of practice this week, and it was thought that Mathes would be a better selection for the position.

George Berger, captain of the 1919 team, will get into play for the first time since the Oklahoma contest, when his shoulder was badly bumped. Capt. Pothoff will pair off with him at the other halfback position. Tommy Thompson, who ran the team so well against Drake, retains his quarterback duties. The line will be the same as that which started last Saturday.

**Local Rooters to See Game.**

Pikewar students will depart for the Boone County capital this afternoon and tomorrow morning, about 300 making the trip to support their varsity. Every man who has contributed to the eleven's success this season is being rewarded with transportation to the game. This will include 23 freshmen players and 10 "scrubs," who were not picked on the regular squad.

Yesterday's workout was a defensive drill, the freshmen rushing the ball for about an hour and a half. The defensive combination succeeded in checking Gordon Beck's charges, and on only three occasions during the play were the Redskins able to negotiate a first down. These down followed completed passes, after numerous previous scrums. The Redskins worked long in preparing his toe for point kicking. Shanley Deeds will kick off and Leo Shanley do the punting.

A large mass meeting was held at Francis Gymnasium, last night, about 1,000 in attendance, and the crowd of eleven has its best chance to beat the Bengals since the 1915 victory on the local campus.

**Lincoln to Play Fullback.**

Missouri is ready for the game, according to reports from Columbia. The regular backfield will be fit for the first time since the Drake contest. Fullback will start at center, Lewis and Williams at the halves, and Lincoln at fullback.

The lineup for the game will be as follows:

## SOONERS' VETERAN TEAM HOPES FOR CLEAN SLATE, SECOND IN 1920

NORMAN, Nov. 12.—Is Ben G. Owen's 1920 football record to duplicate the Sooners' 1918 record and finish the season without a defeat? And with 12 letters on the 1920 aggregation from the 1918 squad?

The four 1920 ends, Capt. D. W. Lester, L. E. Haskell, Howard Marsh and G. M. Tyler, were all lettermen in 1918. So were Paul W. Johnston and Roy Smoot, tackles, and W. H. McKinley and E. E. Deacon, guards, and D. W. Hamm, center.

In the 1920 backfield, two halfbacks, H. F. Hill and P. E. White, are playing again this year, as is R. E. Swatok, 1918 fullback.

An unbeaten team is not particularly unusual in American collegiate football; but two successive unbeaten teams, composed of practically the same players, only two seasons apart, is not often recorded in grid history.

**Johnston Beats Tilden.**

PORTLAND, Ore., Nov. 12.—Members of the American Davis cup tennis team here en route to Australia to play for the trophy, left last night for Tacoma and Seattle, Wash. In exhibition matches played by the members, William T. Tilden, former world singles champion, lost to William M. Johnston, former national singles champion. Watson M. Washburn and Samuel Hardy played a two-set draw.

## Highly Developed Aerial Game May Give Yale Chance Against Tigers

Princeton, Favored to Whip Bulldog, Did Not Show Impressive Strength Against Harvard's Passes—Game Should Be Full of Thrills, Says Walter Camp.

By Walter Camp.

If Yale has read the handwriting on the wall and detected the fact that Princeton is none too strong on defense against the forward passing game, and moreover, that Harvard did not offer any great resistance to Princeton's passes, she will have spent all of this week in perfecting the overhead game, both from an offensive and defensive standpoint.

Ten days ago it certainly seemed as though Yale's chances could not be considered nearly as good as they were last year. Half the team was crippled and things were going badly. Yale partisans were in the dumps of despair, and although the patched-up team showed an unequalled fighting spirit and the old bull-dog tenacity, things looked anything but promising.

What Yale did with West Virginia in comparison with Princeton, was an encouraging feature. The Princeton-Harvard contest, though, gave all an opportunity to see how good Princeton was. It left the Princeton men confident of a victory over Yale, the Yale men blue with depression on account of Princeton's excellent play.

**Odds Still Favor Princeton.**

Princeton may sweep Yale off her feet by the fierceness of its play in the early part of the game. This had its effect on Harvard, and the Princeton team of this year is one of the hardest playing teams of the season. The fact that it has the same snatched out of its hands at Cambridge will make it even more aggressive for the Yale contest. It should be a much better game than was looked for two weeks ago, and will be as productive of thrills as have all Princeton-Yale games in the past. The odds still favor Princeton, but the possibilities as outlined above must be taken into serious consideration, and a week at forward passing, and defense, will certainly put Yale into a far better position than she has been.

## Tiger Subs May Face Washington

Second String Backfield Likely to Start Game for Missouri, Tomorrow.

COLUMBIA, Mo., Nov. 12.—Armistice day brought no holiday for the University of Missouri football squad yesterday afternoon. If there was any change at all Coaches Miller and Phelan, spurred by the wintry weather, made the team's workout a harder one than has been usual this week.

It was the last scrimmage before the game with the Washington University team here at Columbia tomorrow, and the Missouri coaches devoted the most of their attention to completing their defense against the Pikers. Special stress was laid upon breaking up Washington passes, and for nearly an hour the varsity backs were busy blocking and intercepting the aerial efforts of the Redskins.

A short signal drill this afternoon will complete the preparation for the game. The varsity will finish the day with a practice on the field, though far from prime condition, in better shape than they have been since the Drake game.

But if the tactics that Miller has followed in practice this week are any indication, the start of the game will find Lewis, Fulbright and Lincoln, the three best bets in backfield material, on the bench. Not one of these men has fully recovered from injuries received in former games, and Miller realizes that they will be sorely needed for the Thanksgiving game.

Miller does start his second-string men in the backfield, showing the Pikers make in the opening minutes of the game will probably bring into the field the remaining three tactics. If the second-string men can take a lead, the Tiger coach has a wealth of material—all of the same caliber—from which he can draw, sending in fresh men as they are required.

But if the second-string men should fail to cope with the St. Louis team, then Lewis and Fulbright, and perhaps Lincoln, would remain to put the game away for Missouri.

Indications are that Saturday's game will be played on a cold, hard field. Rollins Field is in good shape now and with fair cold weather forecasted for today and tonight, conditions should be ideal for a fast battle when the Tigers and Pikers clash tomorrow.

## Billikens to Face Powerful Foe in Marquette Eleven

Teams Have Played Two Scoreless Ties in Past Two Years—Visitors Have Edge in Weight.

St. Louis University will encounter some more strenuous opposition tomorrow afternoon, when it entertains the Marquette University eleven at Sportsman's Park. For two years the Billikens have surprised the Milwaukee machine by holding it to a scoreless tie, and St. Louis University's student body is hopeful this season despite rather poor showings in its previous games.

The Marquette squad, including 24 players and Coach Jack Ryan, arrived this morning and registered at a downtown hotel. Coach Ryan planned to put his men through a short linebush-up drill at Sportsman's Park this afternoon. All members of the squad were reported in good condition. Emmett Walsh, star end, is sufficiently recovered from injury to get into the game tomorrow, if necessary.

The visitors will have the advantage in weight, averaging about 170, to St. Louis U's 160 pounds.

Marquette possesses several stars, among them Cravin, halfback. He is a very fast and aggressive player, a good passer and a good receiver of passes. Langhoff, captain and halfback, also carries the ball well and is a good running mate for Cravin. He is particularly good on defense, being able to devise where the opposing plays will go. Taucher, a former marine winner of the D. S. C. and Croix de Guerre, will probably start at fullback. He is an exceptionally good line plunger and broken field runner. Ibergin will also be available for this position, and is a strong defensive player.

Ruchenberg, a former halfback, will start at quarter. He is a general, but lacks experience at that position. Walsh at end is a good kicker and passer. He averages about 45 yards on punt and is a dangerous dropkicker around the 25-yard mark. Biagi will hold down the other end.

**Linnam is Star of Line.**

P. Linnam at tackle is the star of the line. He weighs 155 pounds and is unusually fast and plays a smashing game. He is particularly good on defense, being able to devise where the opposing plays will go. Taucher, a former marine winner of the D. S. C. and Croix de Guerre, will probably start at fullback. He is an exceptionally good line plunger and broken field runner. Ibergin will also be available for this position, and is a strong defensive player.

BALTIMORE, Md., Nov. 12.—Joseph P. Kennedy, a member of the State Racing Commission, yesterday was attacked by the crowd at the Pimlico race track, and severely injured. Women were among his assailants. A finger of his hand was broken in the fracas.

Belief on the part of the crowd that Kennedy was responsible for Joeey Frank Keogh riding the horse "Mammoth" instead of Carroll Shillington, as first announced for the mount, was thought to have been responsible for the attack.

## HARVARD COACH REFUSES TO NUMBER HIS PLAYERS

NEW YORK, Nov. 12.—The resignation of Bill Brown, veteran boxing referee, who has officiated in many bouts throughout the United States, from the list of available referees under the new State boxing law, was announced today. Brown's severance of connection with the Boxing Commission was said to have resulted from his objections to the commission's system of choosing referees by rotation instead of their fitness for each particular bout.

## Welling to Meet Leonard in Title Bout at New York

Chicago Lightweight Given Preference Over Mitchell, Jackson and Others.

By John E. Wray.

Something of a surprise was thrown into the flat specialties of the country last night when dispatches from New York announced that Tex Rickard, the Ban Johnson of the boxing world, arbitrarily picked Joe Welling as the fighter entitled to the first title match of the season with Benjamin Loner (ring name Benny Leonard), the Semite holder of what is called the world's lightweight championship.

Among the men considered for the honor were Richie Mitchell, the Milwaukee meteor, Willie Jackson, the only boy to knock out Johnny Dundee; Lew Tendler, rated the cleverest left lightweight (133 pounds) in the country, and Johnny Dundee.

Mitchell would be the first choice, but with a due sense of a proper climax Rickard probably will lead his lightweight candidates against the title holder in what he considers the order of their importance, the least of them being the earlier opportunities. Such a plan would enable the champion to attain his highest fighting pitch for his final fight, provided he survives the earlier matches.

PRINCETON, N. J., Nov. 12.—Only a light workout was ordered for the Princeton varsity football squad today in preparation for the annual Princeton-Yale game. The team was sent through its last hard signal drill of the season yesterday, and at its conclusion Fitzpatrick, the Princeton trainer, said every man was in excellent condition. Neither he nor any of the coaches were willing, however, to make predictions as to the outcome of the game.

## Yale's Best Back Unlikely to Face Tigers Tomorrow

Aldrich Considered Physically Unfit to Take Part in Scrimmage Practice.

NEW HAVEN, Conn., Nov. 12.—That the Yale team will start the Princeton game without its best back, Mack Aldrich, became apparent yesterday afternoon in the last when the final dummy scrimmage work was held. Aldrich followed the team, but did not go through signals. While he made many beautiful drop kicks from the 25-yard line and some from as far as the 40-yard line, it is practically assumed that he will not be far enough along physically to go in against Princeton.

The left halfback will go to Howard Campbell, and the probable choice for quarterback now is Kempton, although Murphy is by no means out of it. Murphy was in the signal drill and part of the scrimmage yesterday.

If Kempton starts it will seem like old days at Exeter, for when Jones was coach there on one of his teams was Kempton at quarterback and Howard Campbell at halfback. Campbell won his letter at Yale last year.

Frank Kelly and Jordan surely will start at right halfback and fullback and the men in the line in the beginning undoubtedly will be Cutler and Dickie Dwidore, ends; Jack Mackay and Leon Walker, tackles; Johnnie Acrona and Tim Callahan, guards; Harry Cross, center.

**Passes Prominent in Practice.**

This lineup went through a dummy scrimmage yesterday, and for a while Murphy was in at quarterback. The signal drill and the dummy scrimmage consisted largely of forward pass formation and the forward passes which gained the most ground were from Kempton and later from Murphy in the 40-yard line. Frank Kelly made the longest pass of the afternoon to Cutler.

Chick Neville went in at quarterback for a while and Wakesley played halfback on the varsity for a few minutes.

Froggy French kicked several field goals in the Brown game last Sunday he just missed a goal from the center of the field and yesterday he scored several from the 40-yard line. In addition to goal kicking ability he can also punt, though he is a novice in this department of the game.

**ATLANTA, Ga., Nov. 12.—**The Georgia Tech Athletic Committee at the Centre College Athletic Association meeting in Danville and Louisville, announced that a meeting of the association held at Centre College was decided to sever all athletic relations with Georgia Tech due to the announcement of the Georgia school announced today.

Victory Saturday  
Will Clinch Flag  
For Yeatman TeamNorth Siders Will Finish Season  
With Three Won, One Tied,  
If They Beat Cleveland.

The championship of the inter-  
scholastic league will depend upon  
the outcome of the Yeatman-Cle-  
veland game tomorrow. Both teams  
are as yet undefeated, although the  
North Side eleven was held to a tie  
by McKinley last week.

A Yeatman victory will clinch the  
title for its team, as it is the last  
Yeatman game of the year, and a  
record of three victories and one tie  
cannot be equaled. Every other  
team in the league has suffered at  
least one defeat. A Cleveland vic-  
tory will give Central a chance to  
tie for first place, provided that the  
Mid-City team defeats McKinley to-  
morrow and then comes back and  
wins against Cleveland.

The South Side team has played  
two games thus far this season, and  
comparative scores indicate that  
there is a slight advantage with  
Cleveland. In its game with McKin-  
ley, Cleveland was better by two  
touchdowns, while the best Yeat-  
man could do was a tie. The game,  
however, was on a muddy field, and  
Cleveland had a decided weight ad-  
vantage. Furthermore, McKinley  
built up its game around its swift  
backfield men, having a decided  
weakness in the line. In the Yeat-  
man-McKinley game last week the  
field was dry and the backfield  
showed to full advantage.

Figure It Out Yourself.

But Yeatman defeated Soldan, 9  
to 2, while Cleveland defeated the  
West Enders by a field goal, both  
sides having scored two touchdowns.  
Soldan had its full lineup in the field  
against Yeatman, but Fullback  
Hirsch, one of the backfield main-  
stays, was absent against Cleveland.  
Yeatman's victory is offset by the  
fact that the game was played on a  
slippery field and the one touch-  
down was due to the fact that the  
tacklers couldn't hold. But the field  
goal was a real one, and the muddy  
field added to the difficulty of mak-  
ing the kick and consequently added  
glory to Right End Melnick's feat.  
Melnick has been absent from the  
Yeatman lineup in the succeeding  
games and it is not yet known if his  
infected foot will heal sufficiently  
to allow him in the game tomorrow.  
The Central-McKinley game will be  
far from a walkaway for Central.  
Central was lucky in defeating the  
crippled Soldan team, 7 to 6, last Sat-  
urday, and unless the team has im-  
proved its game McKinley will put the  
Red and Black out of the running. Mc-  
Kinley did some tall playing in hold-  
ing Yeatman to a tie last week and if  
it is as good and the breaks are with  
it as they were against Yeatman,  
Central is out of it.

Kinney Is a Great Player.

Kinney has a good man in Full-  
back Kinney and Central will have to  
watch him. He pulled off two 40-yard  
end runs, and caught a long forward  
pass that resulted in a touchdown last  
week and all in all played a wonderful  
game. But he is not the only back-  
field man Central will have to watch  
as the other backs are very swift. By  
improving the attack and arousing a  
little fight in the interference, how-  
ever, Central can win.

The teams stand as follows:  
Cleveland..... Won. Lost. Tied.  
Yeatman..... 2 0 1  
Central..... 1 1 0  
McKinley..... 1 1 1  
Soldan..... 0 2 0

To Look Young Quickly  
For Special Occasion

How often have you feared and giv-  
tered with your face on the eve of some  
important social event when you would  
look your prettiest, and try what you  
would just couldn't get the desired  
result? Next time your face becomes  
unruly, exhibiting a careworn and saggy  
appearance, and encircled with fine  
lines, here's something that will quickly  
transform it into one of youthful fresh-  
ness.

Just get an ounce of powdered azo-  
nol at your druggist's, mix this with about a  
half pint of witch hazel, and bathe your  
face in the solution for two or three min-  
utes. Immediately after you feel a  
"tingling up" of the skin and under-  
neath, which naturally tones out the  
little wrinkles, worry marks and flab-  
biness. The contour and general appear-  
ance of your face are so improved, you  
will be glad you heard of this simple and  
harmless method.

Both Industrials and Railroad Shares Drop Heavily—Cotton and Wheat at New Low Level. By the Associated Press. NEW YORK, Nov. 12.—The Evening Post, in its copyrighted financial review today, says: "Another severe break in prices of industrial and railroad stocks occurred on the exchange today, at the same time that the cotton and wheat markets were declining heavily to new low levels on the present prices of prices. Nothing in the day's news developed to account for the continuance of liquidation on such a scale; in fact, the stock market itself, bewildered by the downward sweep of values, hardly looked for specific events to serve as explanations. It seems to be sufficient for the moment to say that the strain upon credit, and the accumulation of merchandise stocks, and the general feeling of the market, are the main factors in the present situation."

Grain Prices Lower in St. Louis Market. Reports of about 250,000 bushels of wheat being exported through the Gulf, presumably for Italy, failed to rally the wheat market very much on the Merchants' Exchange today, although some reaction was noted from the low point on the export business. Corn and oats ruled under yesterday. Cash wheat was steady to higher, but cash corn was lower. Primary receipts today were 1,423,000 bushels of wheat, compared with 1,600,000 a week ago and 1,717,000 a year ago. Corn, 260,000 against 272,000 and 460,000, respectively. Shipments from Argentina from Jan. 1 to date are estimated at 12,581,000 bushels of wheat against 97,240,000 for 1919; 103,631,000 corn, against 82,655,000, and 20,094,000 oats against 17,117,000 for 1919.

## MORE TRUTH THAN POETRY

By James J. Montague.

## THE RAT.

He never has had access to  
The ample page of knowledge;  
His parents never put him through  
A brain constructing college;  
He has no pull—he has no friends—  
Yet furtively and slyly  
He almost always gains his ends  
And lives the life of Riley.

His tribe somehow contrives to eat,  
Destroy or ruin nearly  
Ten million dollars worth of wheat  
And oats and barley yearly,  
Despite the fact that every one  
Throughout an angry nation  
Is bent, with poison, trap and gun  
On their annihilation.

They come and go where'er they please;  
They go on wild carousals  
Or sit about in idle ease  
In most exclusive houses.  
They toll not, neither do they spin,  
They scorn all useful labors,  
Subsisting with a cheerful grin  
Upon their human neighbors.

We swell our chests and brag and spout  
And fancy we are clever—  
In fact we are just about  
The greatest beings ever—  
Yet when we grit at Mr. Rat  
And bitterly abuse him,  
I often have reflected that  
We really must amuse him.

## CASTLES COME HIGH.

Judging by current rent rates the  
landlords are evidently of the opin-  
ion that a man's house is his castle.

## ONE MUST BE PRACTICAL.

In the forthcoming quarrel our  
sympathy is with Carpenter, but our  
money is on Dempsey.

## Not Like a Lawyer.

Mirandy, of dusky hue, made a  
poor witness. In answer to every  
question put to her by the attorney,  
she invariably replied, "I think so."  
The attorney finally became disgust-  
ed.

"Now, look here," he warned. "I  
want you to cut out that thinking  
and answer questions. Now talk!"  
"Yes, sah," quavered Mirandy.  
"But, mistah, you see, it's like dis:  
Ah ain't like you lawyers; Ah can't  
talk without thinkin'."—Philadelphia  
Ledger.

## Gratitude.

A clerk employed behind the counter  
at a postoffice in the south of  
England recently rescued a young  
girl from drowning. In order to  
show her appreciation of the young  
man's bravery, local residents have  
now decided to purchase their  
stamps at his postoffice.—London  
Punch.

## "Very Comical, but—"

One of the incidents of an Amer-  
ican hospital unit's minstrel per-  
formance was a poker game between  
blackface comedians supposed to be  
on duty in England. One glanced  
conveniently at his three aces and  
announced:

"Ah bets a pound."

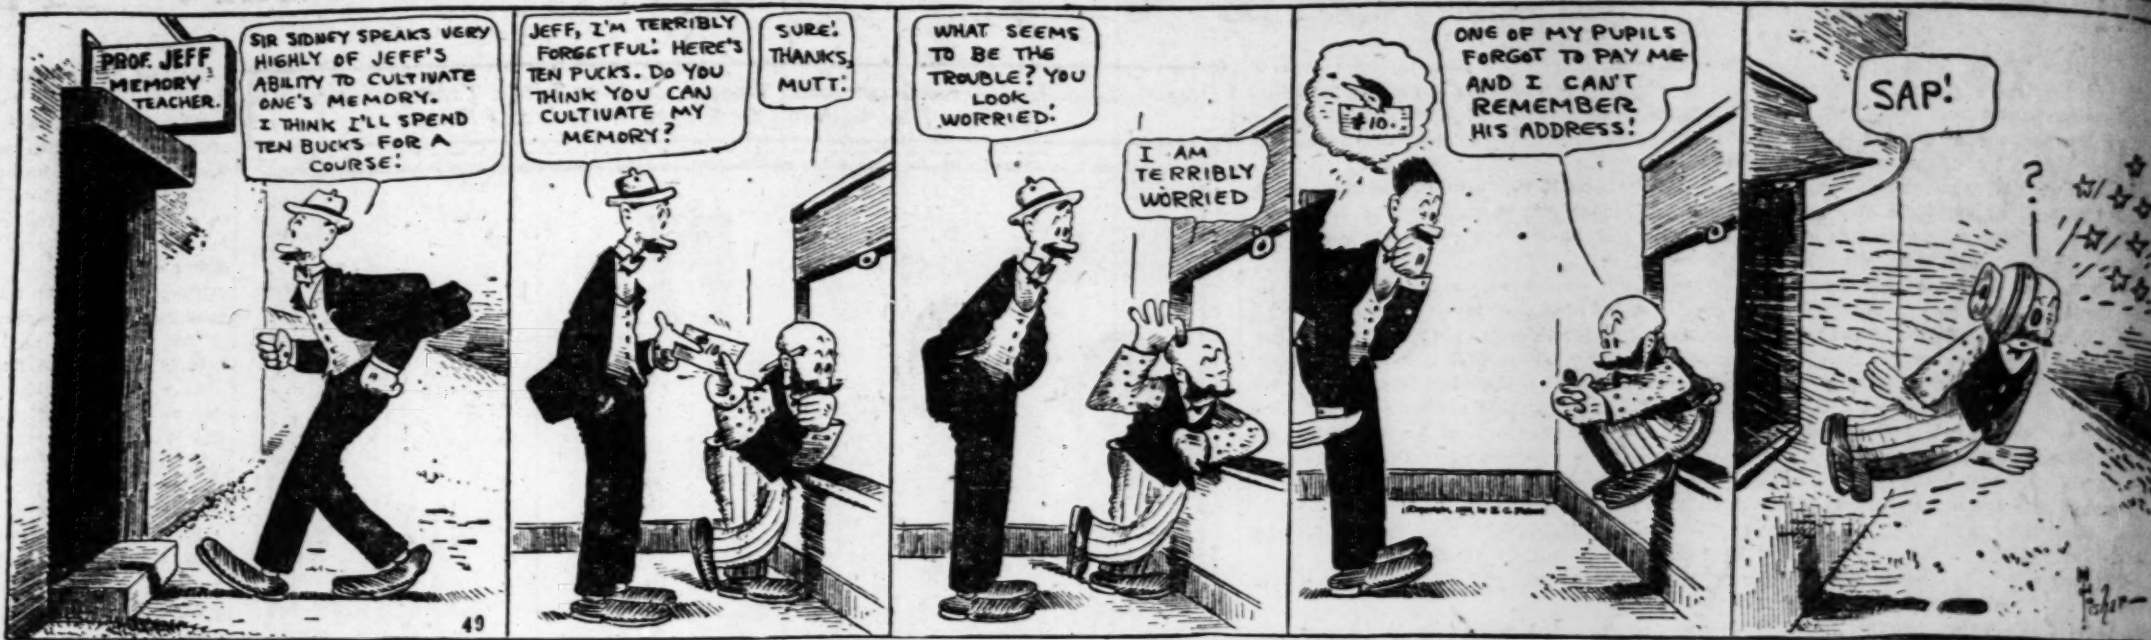

Private Rastus grunted and let his  
eye rove lovingly over his beautiful  
"ill" king full.

"A pound, huh," he grunted scorn-  
fully. "Nigger. Ah raises you just  
one ton."

There were numerous Americans  
in the audience and the laughter was  
considerable. When it died down a  
British "Red Tab" leaned over to an  
American officer in the next seat and  
whispered:

"Very comical expression—but, I  
say, I don't just get his ideas about  
a 'ton.' A ton of what?"—San Fran-  
cisco Chronicle.

Servant Girl (at house phone): No,  
Mr. Blathers ain't in—an' he an' the

## Here He Is Again.

There was a young man so benighted,  
We never knew when he was slighted.  
He went to a party  
And ate just as hearty  
As if he'd been really invited.  
—Til-Bits.

## World Beating.

We understand that the world's  
record fast has been accomplished  
by a Scotsman, who has succeeded  
in remaining in prohibition America  
for seven months and three days.  
—London Punch.

## Hick Humor.

"How are things up in Squashville,  
Si, pretty brisk?"  
"Gawsh, no! There's so little doin'  
they've laid off the hands of the  
town clock."—Boston Transcript.

## Plenty of Courtesy.

"Don't you find writing a thank-  
less job?"  
"On the contrary, everything I  
write is returned to me with thanks."  
—Kansas City Star.

"Do you remember when you were  
first struck by my beauty?"  
"Yes, dearest. It was at the  
masked ball."—Sun Dial.
